7:00pm @ La Conner |  9/24 First Aid
7:00pm @ McLean Road |

Skagit County AED Registry – Second Announcement!

Skagit County EMS is pleased to announce that we are in the process of implementing a countywide AED Registry. The registry is a free service to all AED owners. The purpose of the Registry is to let us (and 9-1-1) know where all the AEDs in the County are located. The system will also send reminders to the AED owners prior to expiration of pads and batteries. This will help ensure that AEDs are ready to go when needed. Our first step is to gather information on all the AEDs with first responders in the EMS system, and then we will be reaching out to the public as well to offer the same service to AEDs in businesses and other locations.

As of today we’ve received AED information from the following departments: Fire District **6, 13, 16** and **19**. A copy of the registry form is attached to this newsletter. Please make sure your department’s AED(s) are entered into the registry! For information, contact Bev Riesland @ 360.416.1834 or briesland@co.skagit.wa.us.

ESO Users Meeting Scheduled

Prior to implementing ESO, the transport agencies, EMS office, and Dr. Russell got together and agreed upon the standard reporting configuration to be used countywide. We also agreed not to make constant adjustments right away unless they were absolutely “mission critical.” Now that the transporting agencies have been using ESO for a couple of months, we are hearing suggestions and feedback from the users, and we want to schedule a meeting for interested parties to get together to discuss what’s working well, what isn’t, and any other thoughts on how to maximize the ePCR system for all our responders.

The first meeting will be on **Thursday, November 5th** in the Ron Richeson Training Center from **1-3pm**.

In the meantime, any ESO related questions, concerns or suggestions should include “ESO” in the subject line and be emailed to markr@co.skagit.wa.us. Thanks!

Kids are back in school – watch for them in school zones!

Skagit County EMS · 2911 E. College Way, Suite C · Mount Vernon, WA 98273-8909

Phone: 360.416-1830 www.skagitcounty.net/Departments/EmergencyMedicalServices/

The Skagit AED Registry is a free service to all AED owners. The purpose of the Registry is let us know where in the county the AED's are. This also will send reminders to the owners and our registry prior to expiration dates of pads, batteries. AED owners can decide to make the AED public or private. If by making the AED public you allow the system to notify responders of the location of your AED if it is within 1,200 feet of the cardiac arrest. This can help save a life. Good Samaritan Laws protect users and responders. Owners of the AED's are also protected as long as the AED is maintained. The Registry will support keeping AED electrodes and batteries current.

All AED's in our system will have red sticker that says SKAGIT AED REGISTRY and a number.

The information needed to enter AED's into the program

AED Location Name _____

AED Street Address, City, Zip Code _____

AED Placement-(description of where to find AED) _____

AED Serial Number _____

AED Manufacturer _____

AED Model _____

Battery Model _____

Battery Expiration date _____

Electrode(pads)Model _____

Electrode Expiration Date _____

Contact person _____

Contact or site's phone number _____

Primary Site Contact E-mail _____
