Breeding Facility at 16065 Mountain)	
View Road within the Mount Vernon)	
Urban Growth Area.)	
_____)	

On March 31, 2008, Marjorie Sundberg filed a Request for Reconsideration of the Hearing Examiner's decision in PL06-0994, entered on March 20, 2008.

The request seeks additional time to obtain and submit a zoning history of the subject property. It also includes post-hearing testimony of the applicant and her realtor in the form of declarations, photographs of the property, post-hearing letters from a veterinarian and from customers, and an attorney's declaration regarding post-hearing efforts to determine the zoning of the property at the time the dog breeding operation commenced.

The information sought and the additional information submitted could have been acquired earlier with reasonable diligence. It is not newly discovered evidence that could not have been presented at the hearing.

Requests for Reconsideration are governed by SCC 14.06.180. On the record presented at hearing, the Examiner concludes that no material legal error occurred and that no material factual issue was overlooked that would change the previous decision.

Accordingly, the Request for Reconsideration is denied.

SO ORDERED, this 9th, day of April, 2008.

Wick Dufford, Hearing Examiner
