Board Discussion

Clear Lake:

This is a study session in which we made final adjustments to the updated Clear Lake site plan and the 'schematic location plan' submitted to us from the destination resort proponents. This meeting was in lieu of the February 21 meeting. The final site plan will be rolled out at the March meeting scheduled at the Clear Lake Elementary School.

NSRA Update:

Brian gave an update about the plan and there was an agreement to support the feasibility process amongst the board members present at the meeting. Mark and John agreed to formalize the thoughts of the board via a letter. There was not as much interest in placing the track outside of the proposed area at the northwest corner of the park.
