Board Discussion

After hosting three Park Board Meetings in the Clear Lake Community in latter 2012 and 2013 to discuss the new Site Development Plan for Clear Lake Park, the Parks Board approved the latest plan, as unveiled by Patrik Dylan at the March meeting. The new park design included component changes as proposed by the participants throughout the process. The following motion was passed unanimously by the parks board:

Move forward with permitting of the restroom portion of the plan and to finalize planning for the internal portion of the park. Planning work should continue on access and parking external to the site.
