

## Parks and Recreation Advisory Board

July, 2012 Minutes

### In Attendance

Mike Elde, Liz McNett Crowl, Lloyd Brown, John Semrau, Kevin Loy, Chris Allen, and Elizabeth Detillion

### Board Discussion

Met at Cleveland Park and discussed the playground, the trees, the stumps, the basketball court and the fence. The concrete border was discussed. The board would like better information on the seating/border before approving the plan.

Skateboard Park: The questions were focused on whether it was a proper use of special path funds. John was concerned about the \$18,000 given to SW from REET for the last project. Was the funding used appropriately? How come the project had such a short shelf life? In the end, the board felt that the funds shouldn't be used for this project based on the special pathway criteria. The board reiterated their support for paving the path along the highway and the parking lot at Fruitdale Road. Motion was brought forth and seconded. The project was denied recommendation unanimously, with one abstaining.

*The SCPR Advisory Board does support using Special Pathways funds on this project, based on criteria and policies.*

**Adjourned at 8:15pm.**
