# YOUTH RULES

Emphasis of tournament is on kids, not coaches or fans or college recruiters.

NFHS basketball rules apply unless otherwise stated below.

All games in all divisions will be played on 10 foot hoops.

Every court will have 1 referee and 1 scorekeeper/timekeeper. Scorekeeper will also call lines and can assist the referee when called upon to do so.

Games are 20 minute running clock. Games will be scored by 2s and 3s. Teams get one 30 second timeout each. Timeouts do not stop clock except in last minute. Last minute will be stop clock if 5 point difference or less. Clock will also stop on made baskets if difference of 5 points or less. Overtime will be 1 minute. If tied after 1 minute game will be decided by free throw shootout. Each player will shoot 1 free throw. If still tied then shots will continue until one player misses and one makes.

Ball must be taken back to 3 point line on all possession changes. This includes steals on take backs. No free take backs. Ball and both feet must cross line. Ball must be checked in at top of 3 point arc on dead ball possession changes including made baskets and ball must be passed in to start play. All jump balls go to the defense. Rock/Paper/Scissors determines first possession. Players can substitute on any dead ball prior to the ball being checked in.

Fouls and free throws;

2 point shooting fouls will result in 1 free throw worth 2 points. 3 point shooting fouls will result in 2 free throws with 1 make being worth 2 points and 2 makes being worth 3 points. Players will shoot 1 free throw to complete conventional 3 point or 4 point play when fouled on a made basket. At 6th team foul, all fouls will result in fouled player shooting 1 free throw worth 2 points. Technical fouls will give opponent 2 points plus possession. Offensive fouls will not result in free throws. Players will line up on lanes and rebound free throws. 3rd and 4th grade divisions will be allowed to jump over the free throw line, but shooter may not rebound until ball has been touched by another player.

Stalling;

The philosophy behind this game is that we want kids to get lots of touches and lots of opportunities to play and improve. The court referee or a court monitor can institute a 15 second shot clock if stalling occurs. Players will be expected to line up for free throws and shoot within 10 seconds. Stalling will result in a loss of possession. Repeated stalling will result in a technical foul. Don't Stall!!!
