

I have lived by the Skagit River on Dike Rd. most of my life, I am 89 yrs. old. I have been at this address for 62 yrs. My family has been making hay on the river side of the dike for many years. Until the past few years we have not had much trouble with people. Now people from town are starting to use the dike as a walking trail, there are pop cans, water bottles - but what is most disturbing is the dog poop. Town people think its country out here so they let their dogs run free. I don't know anyone who likes to run into dog poop. When the family make hay, the poop is in the hay also, the cows don't like to eat it with dog poop in it.

I also rent my 15 acres on this side of the dike to, Neil Hall, who has scrubs and trees planted in it. His workers work most of the ground by hand. They have to pick-up garbage all the time and I know they don't like to run in to dog poop.

I would like to know who thinks this would be a good place to make public, truthfully would you like your land made public and have strangers

come within feet of your back door?

We have had seven generations of family living here on Dike Rd starting around 1904, we now have four generations living here in several houses. Please do not make this public, we have loved and cared for this land for many, many years

We also have several great grand-kids who love to ride their bikes on the the ground we own, it would be a shame to take that away from them after all WE OWN IT!
