

**RESOLUTION NO.**

**2015-2020 SIX-YEAR TRANSPORTATION IMPROVEMENT PROGRAM**

**WHEREAS**, R.C.W. 36.81.121 requires annually a public hearing be held prior to the adoption of the budget to update the Six-Year Transportation Improvement Program; and

**WHEREAS**, the call for a public hearing with a Notice of Public Hearing was published in the Skagit Valley Herald on September 4, 2014; and

**WHEREAS**, a public hearing was held to receive public input at 6:00 p.m. on September 23, 2014;

**WHEREAS**, the Planning Commission unanimously recommended approval of the 2015-2020 Six-Year Transportation Improvement Program in its recorded motion of October 21, 2014; and

**WHEREAS**, the Board met in a work session on October 28, 2014, with the Department of Public Works to review the preparation of the recommended Six-Year Transportation Improvement Program including Guemes Ferry projects and non-motorized projects; and

**WHEREAS**, the current Priority Array for Arterial Road Systems in Skagit County has been consulted in the preparation of the proposed Transportation Improvement Program per W.A.C. 136.14.030; and

**WHEREAS**, all of the bridges on the county road system are inspected in accordance with the National Bridge Inspection Standards and results reviewed in preparation of the proposed Transportation Improvement Program and submitted to the Washington State Department of Transportation local programs bridge engineer per WAC 136-20-030; and

**WHEREAS**, the Financial Plan, along with other parts of the Transportation Element of the Skagit County Comprehensive Plan have been considered in the preparation of the recommended Six-Year Transportation Improvement Program as required by R.C.W. 36.70A.070; and

**WHEREAS**, the recommended Six-Year Transportation Improvement Program is found to be consistent with the Comprehensive Plan as required by R.C.W. 36.70A.070; and

**NOW, THEREFORE, BE IT RESOLVED** by the Board that the 2015-2020 Six-Year Transportation Improvement Program, as attached and made a part hereto of this Resolution, is hereby approved and adopted.

WITNESS OUR HANDS AND THE OFFICIAL SEAL OF OUR OFFICE this  
8 day of December, 2014.

BOARD OF COUNTY COMMISSIONERS  
SKAGIT COUNTY, WASHINGTON

OPPOSED

RON WESEN, Chair

Kenneth A. Dahlstedt

KENNETH A. DAHLSTEDT, Commissioner

Sharon D. Dillon

SHARON D. DILLON, Commissioner

Z	Joah Wilson Road Reconstruction

# 2015-2020

## SIX-YEAR TRANSPORTATION IMPROVEMENT PROGRAM

### THESE NEW PROJECTS ARE BEING CONSIDERED FOR INCLUSION ON THE 2015-2020 SIX-YEAR TRANSPORTATION IMPROVEMENT PROGRAM

#### **Cascade Trail Asphalt Paving Phase 1**

This project will seek grant funding and other sources to pave a portion of the Cascade Trail from Sedro-Woolley (Fruitdale Rd) to Lyman/Hamilton (Hamilton Cemetery Rd) approximately 8.0 miles in length.

(Pg 5)

#### **Cascade Trail Asphalt Paving Phase 2**

This project will seek grant funding and other sources to pave a portion of the Cascade Trail in the Town of Concrete from Grassmere Road to North Dillard Ave. approximately 2.0 in length.

(Pg 6)

#### **Cook Road Signal Advance Warning**

This project is will install an advanced warning sign system with an activated flashing beacon. In addition, the signal heads and the signal cabinet will be upgraded, that will include pedestrian crossing signal upgrades. Staff has submitted for funding through the Highway Safety Grant (Fed).

(Pg 9)

#### **Dodge Valley Road Barrier Protection (Various Locations)**

This project will review guardrail warrants and crash location Dodge Valley Road in determining need of installing barrier protection. Staff has submitted for a Highway Safety Grant Funding (Fed) for this project.

(Pg 10)

#### **Fir Island Road Overlay**

This project is seeking grant funding through the Rural Arterial Preservation Program to overlay the remaining portion of Fir Island Road from the South Fork Bridge for approximately 3.00 miles. This will complete the entire overlay of Fir Island Road.

(Pg 12)

#### **Friday Creek Bridge**

This project is seeking grant funding through the Federal Highways Bridge Program to replace/repair the bridge deck and make repairs to the bridge.

(Pg 18)

#### **Josh Wilson Road Phase 1**

The County has received \$285,000 in grant funding from the Surface Transportation Program (Fed) for design and \$1,057,552 for construction. This project will stabilize and reconstruct the failing road base and will include bringing the roadway up to current design standards. The project limits are from the intersection of Avon Allen Road to Jensen Lane. (Pg 21)

**Josh Wilson Road Phase 2**

This project will stabilize and reconstruct the failing road base and will include bringing the roadway up to current design standards. The project limits are from SR 11 to Avon Allen Road.

(Pg 22)

**Josh Wilson Road Phase 3**

This project will stabilize and reconstruct the failing road base and will include bringing the roadway up to current design standards. The project limits are from Jensen Lane to Emily Lane.

(Pg 23)

**Josh Wilson Road Phase 4**

This project will stabilize and reconstruct the failing road base and will include bringing the roadway up to current design standards. The project limits are from Higgins Airport Way to Farm To Market Road.

(Pg 24)

**LaConner Whitney Road Overlay**

This project is seeking grant funding through the Rural Arterial Preservation Program to overlay the remaining portion of LaConner Whitney Road from McLean Road for approximately 2.20 miles to the roundabout. This will complete the entire overlay of LaConner Whitney Road.

(Pg 25)

**Lower Finney Creek Bridge Repairs**

This project is seeking grant funding through the Federal Highways Bridge Program to replace/repair the bridge deck and make repairs to the bridge.

(Pg 26)

**Old Highway 99 North Illumination**

This project will install roadway lighting on Old Hwy 99 North adjacent to the Skagit Speedway Race Track. This section of roadway experiences high pedestrian traffic in the summer months due to attendance at the track. Staff has submitted for a Highway Safety Grant Funding (Fed) for this project.

(Pg 29)

**Peterson Road**

This project will seek funding and partners to improve/widen Peterson Road to urban standards from the Bayview Ridge neighborhood to the Higgins Airport Way.

(Pg 30)

## **THESE PROJECTS ARE ANTICIPATED TO REMAIN ON THE 2015-2020 TRANSPORTATION IMPROVEMENT PROGRAM**

### **Bow Hill Road Reconstruction**

The County as has received \$1.5 Million for the 2013 – 2015 biennium of the Rural Arterial Program (RAP) funding from the State County Road Administration Board. We have also secured funds through the Federal Program STP(R) of \$640,000. We are currently working the design for this project and are anticipating the possible purchase R/W if needed in 2014. In addition, construction is also scheduled to begin in late 2014.

(Pg 1)

### **Bradshaw Road Rehabilitation**

This work will improve the shoulders and roadway between McLean Road and Summers Drive followed by applying a cap over the existing concrete panels to improve and stabilize the road surface. Design of the project will be completed in 2014 and is anticipated to go to construction in 2015.

(Pg 2)

### **Burlington Northern Overpass (#40111)**

The County has received \$10-Million through the Bridge Replacement Advisory Committee (BRAC) to help replace this overpass. The project will demolish and replace the existing wood super structure and deteriorating concrete deck with a new overpass. The overpass is currently at 30% design and permitting phase of the project and is anticipated be complete in 2015. The construction phase is currently scheduled to begin in 2016. The current bridge is the County's lowest rated bridge and is currently supported by temporary shoring to maintain the current legal load limits; it is rated as structurally deficient and functionally obsolete.

(Pg 3)

### **Centennial Trail (Big Rock to Clear Lake)**

The County has received \$100,000 from the Transportation Alternatives Program (Fed) for design of the trail. This project will purchase right-of-way and design a non-motorized path from Big Rock to Clear Lake as part of the connection or portion of the Centennial Trail the currently runs through Snohomish County. The purchase of right-of-way is anticipated to be completed in 2014. Design will begin in 2014 and construction in 2016.

(Pg 4)

### **Concrete Sauk Valley Road (Milepost 13.0)**

The Sauk River is eroding land and starting to encroach on the Concrete Sauk Valley Road. Preliminary counter measures were installed in 2013, but the County will need to determine a permanent repair to stabilize the bank and stop the erosion into the Concrete Sauk Valley Road.

(Pg 7)

### **Cook Road Reconstruction (Intersection I-5 Ramps to Green Road)**

Staff is seeking grant funding to help in the improvement of the Cook Road / Old Hwy 99 intersection to improve traffic flows through the intersection and I-5 ramps. The project limits are from the Cook Road I-5 interstate off ramp to Green Road. Washington State Department of Transportation is a potential partner due to the impact of the I-5 ramps.

(Pg 8)

### **Francis Road/SR 9 Intersection**

This project will look at improvements to the intersection of Francis/Old Day Creek Road with SR 9. As this is a State controlled intersection, Public Works will need to work with WSDOT staff to prepare a scope and estimate for improvement of this intersection.

(Pg 14)

### **Francis Road Section 1, milepost 5.14 to 5.78**

This project will reconstruct and widen this section of Francis Road to current standards and improve safety. This section of Francis Road that intersects with State Route 9 is not yet funded. We will seek funding for this section of road through CRAB and other viable funding sources.

(Pg 15)

### **Francis Road Section 3, milepost 2.75 to 3.75**

This project will reconstruct, widen, re-align, and replace a functionally obsolete bridge. We will seek funding for this section of road through CRAB and other viable funding sources.

(Pg 16)

### **Francis Road Section 4, milepost 1.48 to 2.75**

This project will reconstruct, widen, re-align, and widen the existing bridge to current standards. We will seek funding for this section of road through CRAB and other viable funding sources.

(Pg 17)

### **Green Road Rehabilitation**

This work will improve the shoulders, roadway and drainage between Cook Road and Kelleher Road by applying a cap over the existing concrete panels to improve the road surface.

(Pg 19)

### **Hard Creek Bridge Replacement**

This project will replace the existing 2010 slide damaged Hard Creek Bridge. Work will include raising and lengthening the bridge thereby providing increased debris storage for future slides. This project received \$1.13 Million in Public Lands Highway Funding and is currently in design phase; Skagit County will be required to provide a 13.5% match or \$148,230. Design will begin in 2014 - 2015 and the construction in 2016.

(Pg 20)

### **North Fork Skagit Bridge Replacement (#40037)**

A Type, Size, and Location Study was completed in 2011. This bridge connects Fir Island to the west county and is an important route carrying freight and farming. It is also a detour route for I-5 due to emergency closures and overweight and size loads. The bridge is not load restricted at this time, but is a fracture critical bridge and is functionally obsolete. The current estimated replacement cost for this bridge is \$25-Million. We will continue to perform maintenance and repairs on the bridge, while seeking replacement funding.

(Pg 28)

**River Bend Road Improvements**

This project will repair and raise the northern section of River Bend Road along the levy. Staff will work with the local Dike District to help fund this project.

(Pg 32)

**Samish River Bridge Repair (Old Highway 99 N.)**

This project will repair frozen rocker bearings and rehabilitate the deck.

(Pg 34)

**Sinclair Island Marine Access (# 40160)**

This project is to determine repair or replacement of dock facility, staff is currently seeking grant funding for this project.

(Pg 36)

**South Shore Road (Guemes Island)**

This project is to continue to explore ways to stabilize South Shore Road.

(Pg 41)

**South Skagit Highway Milepost 4.0**

Stabilize river bank and protect roadway.

(Pg 40)

**South Skagit Highway Realignment (Mill Creek Area)**

This project will study the feasibility to realign South Skagit Highway to improve fish habitat and reduce bridge maintenance issues at Mill Creek. The study will look at alternate routes and improving water flows on the existing alignment and make a recommendation. The funding for this study is grant funded by the Salmon Recovery Fund Board (SRFB) and Seattle City Light.

(Pg 39)

**Thomas Creek Bridge (Old Hwy 99 N)**

This project will seek funding to replace the Thomas Creek Bridge. This bridge is one of a few remaining timber structure bridges in the County.

(Pg 42)

## **SKAGIT RIVER FLOOD CONTROL**

**Skagit River Bridge Modification & Interstate Highway Protection Project**

Federal funding supports engineering, right-of-way, and construction work within and adjacent to the Bridge Corridor to protect transportation infrastructure and other infrastructure in the Skagit River floodplain.

(Pg 37)

## **OTHER ROAD PROGRAM PROJECTS FOR 2015-2020**

### **Resurfacing of ACP Roads**

This project will review pavement rating data in conjunction with Operations Division input to determine which asphalt roadways to resurface.  
(Pg 31)

### **Emergent Projects at Various Locations**

These are emergency, minor construction, and safety projects.  
(Pg 11)

### **Fish Passage Emergent Projects**

These projects are for emergent projects to improve fish passage .  
(Pg 13)

### **Non-Motorized Emergent Projects**

These projects are for emergent non-motorized type project.  
(Pg 27)

### **Safety Improvement Emergent Projects**

These projects are for emergent safety projects.  
(Pg 33)

### **School Safety Emergent Projects**

These projects are for emergent school safety projects, school zones, school bus stops.  
(Pg 35)

### **Slope Stabilization Emergent Projects**

These projects are for emergent slope stabilization projects.  
(Pg 38)

## **GUEMES ISLAND FERRY PROJECTS**

### **Guemes Ferry Boat Replacement or Modifications**

To replace the current Guemes Island Ferry or to modify as needed to meet present and future needs of the ferry service.  
(Pg 43)

### **Guemes Ferry Breakwater Section Replacement**

This project will remove and replace the old breakwater section on the Anacortes side. The County was awarded \$276,000 from the Ferry Boat Program in 2013 to help fund this project.  
(Pg 44)

**Guemes Ferry Engine Replacement**

This project will replace one of the engines on the Guemes Island Ferry.  
(Pg 45)

**Guemes Ferry Headframe and Tower**

This project is on the 14-Year Guemes Ferry Capital Improvement Plan for 2016.  
(Pg 46)

**THESE PROJECTS WILL BE DELETED FROM THE  
2015-2020 SIX-YEAR TRANSPORTATION IMPROVEMENT PROGRAM**

*The following projects or studies were determined to be complete, or scheduled for completion, or are no longer required in 2015*

**Abandoned Railroad Bridge Removal (Study)**

A study has been completed in 2014.

**Calhoun Road Rehabilitation**

This project has been constructed and completed in 2014.

**Davis Slough Bridge Project (South Skagit Highway)**

This project is currently in construction and is anticipated to be completed in 2014.

**Finney Creek Road**

This project was seeking grant funding and was denied. County crews have taken action to repair the roadway.

**Guemes Ferry Dolphin Replacement, Anacortes Dock**

This project is in construction and is anticipated to be completed in 2014.

**Josh Wilson Road Reconstruction**

Due the estimated cost of this project it was broken up into phases 1 – 4. See above additions.

11		/ 2029(040)  SKAGIT RIVER BRIDGE MODIFICATION & I-5 INTERSTATE PROTECTION PROJECT  na to na  Studies by the Corps of Engineers and Skagit Co. have shown that a major component of a flood control project to protect urban areas and transportation facilities in lower Skagit Co. will include the modification and improvement of the existing system of levees along the Skagit River. This project is the first element of a comprehensive plan to reduce the flood risk to these areas, including I-5, SR 20, SR 536, and the BNSF RR. These studies have shown that modifying the existing levees by raising, reinforcing, and limited setting back of levees in some of the project reach is a key component of every flood control measure being considered. This project will complete preliminary engineering studies, an environmental assessment and begin obtaining rights of way. Includes Bennett Road extention	WA-01247					03			DCE	No
