Route 49 is designed for Fixed Route and Dial-A-Ride passengers to use in Anacortes. Route 49 will serve bus stops on a scheduled route (represented by the wide black line on the map) approximately every 30 minutes. It will travel up to ¾ mile off the route (shaded area) to designated bus stops for passengers that are unable to get to the scheduled route.

This route will make connections at 10th & Q with Route 410 for rides to the WA State Ferry, Skyline area and March's Point. At March's Point passengers may make connections with Routes 513, 615 and Island Transit's 411W.

Please call up to two hours before your desired pick-up time to schedule a ride at a designated bus stop. Dial-A-Ride passengers may schedule a ride up to one week in advance.

Callers requesting a ride 30 minutes or less before the desired pick-up time may not be accommodated, due to a full schedule.

Route 49 (BUS PLUS) vehicles are not equipped with electronic fare boxes. The service operates as a Fixed Route and all riders are required to pay a fare.
