RE.: File 25487
Septic System, Anchor on MP - WI 2, Pole 6/6
Grid 453530-158050

Dear Mr. Priest,

This letter is pursuant to our telephone conversations on October 13 and 14, 1998 concerning your proposed septic system. Upon reviewing the map you faxed me and a site inspection on October 14th, I suggest you locate the proposed septic mound system a minimum of five (5) feet from the existing pole anchor. As I mentioned during our telephone conversation, the anchor extends approximately five (5) feet past its' point of ground entry. By designing the mound system outside of a five foot radius of the anchor (as marked on the enclosed map), conflicts should be avoided.

If I can be of further assistance in this matter, do not hesitate in calling me.

Sincerely,

A handwritten signature in cursive script that reads 'William A. Grace'.
