Skagit County Auditor

24. A final plat meeting all requirements of this Chapter shall be submitted to the City Council for approval within five years of the date of Preliminary Plat approval. An applicant who files a written request with the City Council at least thirty (30) days before the expiration of this five (5) year period shall be granted one (1) one-year extension upon a showing that the applicant has attempted in good faith to submit the final plat within said five year period.

25. If a final plat meeting the requirements of Section 16.020 of the City Subdivision Ordinance is not submitted to the Planning Director within five years, and the period of any extension granted, preliminary approval shall be null and void and any new application therefore must be in accordance with all requirements in effect at the time of reapplication.

26. All work done pursuant to the preliminary plat shall be consistent with these findings and conditions with any conflicts between these being resolved in favor of the conditions. The preliminary plat may be modified by the Planning Director. If it is determined that such modification does not substantially change the density or usage or increase the bulk proposed, or otherwise increase the impact of the development. If the proposed changes are not within the scope and intent of the preliminary plat, the applicant shall apply for a new preliminary plat in the manner provided herein.

27. The project shall comply with the City of Anacortes, construction standards, as modified herein, as required by the Director of Public Works for water, sewer, street access, and storm drainage. All work performed within public rights-of-way shall comply with City construction standards and all utilities shall be constructed to City Standards.

28. Engineering and Inspection fees in the amount of \$600 plus 2% of the total construction cost shall be due at or before the mandatory pre-construction conference. No construction activity is allowed until construction plans are approved, fees have been paid and the pre-construction conference completed.

29. This project is subject to applicable water, sewer, and stormwater general facility and hookup fees and transportation, fire, school, and park impact fees. These fees are payable at levels in effect at the time of building permit issuance and may differ from those fee levels currently in effect; sewer and water latecomer charges may be payable.

30. A temporary erosion sedimentation control plan shall be prepared and submitted with the grading plan for approval by the City Director of Public Works. The plan shall identify the potential for erosion and downstream sedimentation during construction and describe the measures that will be used to mitigate impacts of erosion. Measures that will likely be employed include sedimentation ponds, silt fences, hay bale filters and restricting the amount of excavation until conditions are favorable.

31. There shall be no underground stormwater detention.

32. Prior to clearing or fill and grade beginning, both a large parcel stormwater plan and a water quality control plan, as spelled out in the City's Storm Drainage Ordinance # 2441, shall be prepared by the applicant, approved by the City Department of Public Works and the Planning Commission, and implemented. The water quality control plan shall address permanent best management practices to be incorporated in the project to control pollution of stormwater runoff after construction and/or land clearing activities are completed. All on-site detention ponds and all off-site stormwater improvements shall be made before construction or vegetation removal beings.

33. Fire hydrants are to be located as approved by the City Fire Chief. Fire flow shall be addressed in a manner acceptable to the Fire Chief and to the Public Works Department.

34. In keeping with the City's street grid street name system, the Public Safety Departments shall approve street names.

35. All street pavement thickness shall be approved by the City Engineer.

Skagit County Auditor

36. The Regulated Slopes requirements set forth in Anacortes Municipal Code 17.54.070 shall be adhered to.
37. School bus waiting area(s) and mail box locators shall be as determined by the City Engineer.
38. All lots created under this Plat shall be subject to all City of Anacortes charges for utility services uniformly charged throughout the City of Anacortes including applicable General Facilities Charges.
39. Any access to the City Forest Lands shall be open to the public and shall require approval of the ACFL Board.
40. There shall be no streets served by a gated access; fencing shall only be added at the discretion of individual homeowners, except for the fencing specified in Condition #56.
41. Street and sidewalk design shall meet ADA standards.
42. Erosion Control and Clearing Plans shall be reviewed, approved and implemented as required by the City Engineer.
43. Internal street slopes shall not exceed 12%.
44. Street lighting shall be energy efficient and installed as per PSE Schedule 52, Option "B", and shall be installed as approved by the City Engineer.
45. All detention ponds shall be designed to City standards, shall be lined, and shall be landscaped as set forth in the City's Landscaping Ordinance.
46. City water quality standards shall be met as required by the City Engineer.
47. Fire sprinklers for structure protection may be required by the Fire Department.
48. A traffic channelization and signage plan shall be submitted, approved by the City Engineer, and installed by the developer.
49. Structural alteration necessary to develop this plat shall not encroach into adjacent land parcels without recorded easements for such encroachment.
50. A Native Growth Protection Easement shall be provided along the project's Easterly boundary line. The buffer shall be 35 feet on Lots 1 through 6 and 6 feet on Lots 7 and 8. This area shall be left untouched with the following restrictions.
- (a) Hand removal of non-native exotic or adventitious plants as approved by the Parks Department.
 - (b) Hazard trees shall be identified with the concurrence of the Parks Department. Hazard trees removed or blown down shall be replanted by the homeowner (as approved by the Parks Department) with a 3' minimum appropriate native stock, which shall be maintained until able to survive without care.
 - (c) Fallen trees in the NGPE shall only be removed from the site with the approval of the Parks Department.
 - d) If the buffer is disturbed, a replanting plan using appropriate native stock shall be submitted to the Forest Advisory Board for approval and once approved shall be implemented by the landowner.
 - (e) The existing gravel road that is in the NGPE shall be restored to native conditions by bringing in 12 inches of native soil and replanting with native vegetation as approved by the Parks Department.

200504290164
Skagit County Auditor

(f) Signs shall be placed on posts every 60 feet along the NGPE stating the following: "Native Growth Protection Easement - Please do not disturb - No dumping of yard waste, etc. - No trail access - Call 293-1918 with questions. Thank you."

51. No modification beyond those set forth in Section 7.3.9.1 are authorized.
52. The avigation easement presented by the Port on June 5, 2002, modified as necessary to accommodate WSDOT's June 26, 2002 recommendation, shall be signed by the proponent and the Port and recorded with Final Plat approval.
53. Pond Tract A shall be dedicated to the City and fully sight screened with landscaping that will provide substantial visual buffering within two years of installation.
54. The off line pond shall be sight screened as above for the benefit of proposed Lots 33 and 34 and Skyline No. 12, Lots 9, 10, 11 and 12.
55. An access road shall extend to all structures and pipe ends for city maintenance.
56. The proposed swale in the center of the plat shall be dedicated to the City as a public tract and shall be 32 feet wide to allow for a stream channel and access route for maintenance. The 32 feet shall be planted for habitat enhancement, maintenance access and in consideration of adjacent residences. Lots 12 through 17 and 19 through 21 shall be restricted from building a fence along the lot's boundary with the swale tract unless the fence is a non-sight obscuring fence i.e. split rail, three rail or wire. Trees shall be planted in the swale.
57. The plat shall construct a 24-foot wide street curb-to-curb, with sidewalks on the South side, on the entire North margin of the plat, with permit(s) secured by the City. This road shall be located on the Northerly side of the right of way in a location so as to save the maximum number of large trees in the Southerly portion of the right of way; no parking signs shall be installed.
58. The internal plat street shall be designed and constructed to AASHTO standard. Curve radius shall be for a 25 mph design speed. The intersection of Marion Way and Clyde Way shall not intersect at the junction of a 10 percent upslope and a 10 percent down slope. Required sight distance shall be maintained through this intersection if it remains the through connection to the North plat road. The curve in Marion Way at the Southwest portion of the plat shall have a radius of 100 feet minimum.
59. Traffic calming, such as narrowed and landscaped road entry, shall be built into the plat and adjacent streets; this work shall be done to the satisfaction of the Public Works Director.
60. The water system shall be looped through the cul de sac at the North end of Clyde Way and connect to the existing 14' water main; the City may require installation of a 12' diameter pipe instead of the required 8' pipe with the additional cost of the larger pipe being paid by the City.
61. The landscaping plan shall be approved by the Planning Commission before any construction begins.
62. Applicant shall secure all necessary permits to construct the swale and storm system.
63. A geotechnical report that identifies subsurface conditions and make specific recommendations for road and shall utility construction shall be provided with the engineering design documents.

200504290164
Skagit County Auditor

64. Prior to Final Plan approval the City will need to secure permit approvals to rebuild the gravel road on the City right-of-way at the North end of the subdivision.

65. A ten-foot wide pedestrian access shall be provided between Lots 9 and 10 in order to connect the cul-de-sac to the Kingsway extension.

66. Culvert size shall be set so as not to reduce the size of the wetland to the North.

67. Pages 17 - 21 of these Findings of Fact and Conclusions of Law shall be recorded with the Final Plat drawing.

68. A Water Quality Pond Tract A and Conveyance Swale Tract B are hereby conveyed to the City of Anacortes for access and maintenance of the storm drainage systems, sewer systems and pond located on said tracts.

69. A Pedestrian Access Tract C are hereby conveyed to the City of Anacortes for construction, access and maintenance of a pedestrian access trail system and for access and maintenance of a water line located in the Tract.

70. A Sidewalk and Pedestrian easement is hereby conveyed to the City of Anacortes along the front and upon the exterior twenty (20) inches of front boundary lines of all lots, tracts and spaces within the plat lying parallel with and adjoining all street(s) for the purpose of pedestrian access and sidewalk encroachment.

71. 10' Public Utility Easement along Northerly and Easterly line.

72. These easements under Auditor's File Numbers 776497, 8010300034, 9703240117, 9807280092, 8110130002, 8108200071, 8109110033 and 200303310327 have been extinguished and replaced by new utility easements as shown on the face of this plat. (Note: This Company finds no recorded releases executed by said utilities).
