DRINKING WATER SYSTEM STATUS REPORT

I, the undersigned property owner, in making an application for a building permit involving a single-family residence acknowledge(s) that this notice is being signed, notarized and recorded in compliance with Skagit County Code Section 12.48.270 in regards to a drinking water quality parameter that exceeds the maximum contaminant level but is treatable to below the maximum contaminant level.

1. I agree to record this notice with the Skagit County Auditor's Office for the purpose of it being made a part of the record of title.
2. I understand that this notice will appear on any title search or record search, and we have no objection nor will we make claims against Skagit County as a consequence of this recording.
3. The drinking water source for this residential building is located in an area exhibiting water quality concerns. The inorganic chemistry taken on 9-10-08 yielded Arsenic and Conductivity levels exceeding the maximum contaminant level (MCL) for drinking water. The levels noted on the date of sampling were: Arsenic .120 (MCL = 0.05 mg/l) and Conductivity 1060 (MCL =700 u ohms). This drinking water source will be treated to yield drinking water below the MCL via Vertex EZ-575 treatment devices installed on the kitchen and bath room sinks. Post treatment sampling on 8-29-08 yielded Arsenic not determined mg/l and Conductivity 17.6. The Health Officer recommends that property owners exercise caution in the use of this drinking water system by:
 - a. conserving drinking water use where possible by installing low water use fixtures and limiting landscape watering,
 - b. testing for conductivity and arsenic on a regular interval as recommended by the manufacturer or at a minimum annually, and
 - c. providing appropriate maintenance to the treatment unit as directed by the manufacturer.
4. Water systems with filed status reports will not be used for the creation of new lots.
5. Specific drinking water system information for this lot may be on file at the Skagit County Planning and Permit Center. (WA08-0020)
