Regarding Patient: Beverly H Hagg
DOB: 12/10/1936

To Whom It May Concern:

I am actively Beverly's medical provider. I recently made a visit to Beverly's home to evaluate her. During that evaluation it was clear that she had significant dementia. Probable Alzheimer's type. After that evaluation it became very clear that Beverly is not capable of managing her own affairs. She is not capable of managing her medical decision making or her financial decision making. Currently struggling to make ADL decisions. In my opinion is important, and in her best interest, for her to have her power of attorney start making decisions for her. If you have any questions please call me.

Sincerely,

Robert P Rieger MD
