

## DISASTER EVENTS - ANACORTES

NO	DATE	LOCATION	REPAIR COSTS	DESCRIPTION
1	Approx 1994	SR20 SPUR		Rockslide closed SR20 spur for about 2 weeks. Access to the city was provided by detour to other roads. No injuries were reported. DOT repaired the damage, scaled back the rock face to remove dangerous conditions.
2	1960's 1990's	SR20 Spur Oakes Ave @Georgia		This built up roadbed slumped when under drains plugged. This fill crosses the natural drainage from Cranberry Lake Dam. Last failure deposited silt in the marina below.
3	1997	SR20 Spur Anacopper Rd		This cut and fill section of roadbed failed. Failed section was rebuilt by DOT. Traffic to the west portion of the city was restricted but not cut off.
4		Anaco Beach Rd.		A slump area on private property next to the road slumped. No injuries or damage to the roadbed.
5	Oct. 1962			Hurricane force winds caused widespread damage throughout the region.
6	12/28/90	Winter Wind Storm		High winds downed trees that damaged homes and power lines. Marina damage was extensive.
7	1996	Winter Storm		About 2 feet of snow collapsed some older shed roofs and most covered moorage structures suffered various amounts of damage
8	1956	32 <sup>nd</sup> Street		Blocked storm drain flooded downstream areas. Corrected
9	1959	32 <sup>nd</sup> Street		Blocked storm drain flooded downstream areas. Corrected
10	1965	Seattle Earthquake		
11	2/28/01	Nisqually Earthquake		6.8 Magnitude earthquake was felt throughout the community. Several building suffered minor damage that required repair.
12		Thanksgiving day storm		High winds cause widespread power outages throughout the Puget sound region.
13	1990	24 <sup>th</sup> St. & M Ave		Heavy rains along with poor maintenance caused back up of storm drain and street flooding. Damage to the storm drain structure and surrounding soil.
14		Fidalgo Bay Resort		Low area subject to storm surge and poor drainage. An accumulation of water over roadways.
15		Doon Way		Storm sewer design behind homes encourages overflow at manholes in heavy rain events.
