7/12/2022	<p style="text-align: center;">MGT-381 Business Continuity Planning</p> <p>This course provides business continuity training to rural communities nationwide. In an effort to standardize terminology among private and public sector entities, it identifies commonalities between emergency management and business continuity planning (BCP). It outlines BCP within the framework of emergency management and the core capabilities of the National Preparedness Goal. Continuity is an important element of preparedness and an integral part of each core capability across the five mission areas of protection, prevention, mitigation, response, and recovery.</p>	<p style="text-align: center;">Government Administrative/Elected Officials Private Sector/Corporate Security and Safety Professionals Public Works Community Emergency Management Personnel Community Stakeholders Food Production</p>	Planning	<p style="text-align: center;">https://ruraltraining.org/course/MGT-381/?scheduled=true&id=2088</p>	<p style="text-align: center;">Skagit Co. <p style="text-align: center;">8/2/2022</p>	<p>G0205: Recovery from Disaster: The Local Community Role This in-person course is the condensed version of the 4-day E0210 resident course. This course covers foundational concepts in disaster recovery and the latest guidance on recovery planning. Participants will either assess their own recovery plan or a sample against this national planning guidance. Following that, participants will discuss how a disaster recovery effort can be organized, managed, and led along with the types of challenges faced by recovery managers. Scenario activities throughout the course give participants the opportunity to target information strategies, and address local capabilities and challenges. They will also analyze lessons learned from Joplin, Missouri. While this is normally a 2.5 day course, in time of disaster, it can be shortened for immediate need in training the basics of recovery based on local need and covers the roles and responsibilities of local recovery team members.</p>	<p>This course is designed for local elected officials (mayor, city/county council member), tribal leaders, city/county manager/staff, city/county planners/staff, regional planning commissions, economic development districts, finance director/assessor, emergency manager/staff, public works director/staff, building inspector/staff, floodplain manager/staff, health care administrator or planner, public information officer, housing director or planner/staff, voluntary agency coordinator or unmet needs committee coordinator, business organization representative, administrative director/manager, state recovery staff and partners (so they can be tuned into recovery at the local level)</p>	<p style="text-align: center;">None</p>	<p style="text-align: center;">Registration preference is given to Washington State and tribal residents.</p>	<p style="text-align: center;">In Person- King Co. Ofc. Of Emer. Mgmt. 3511 Northeast 2nd Street, Renton, WA</p>
<p style="text-align: center;">8/16/22</p>	<p>G0272: Warning Coordination This course is the latest in the hazardous weather series of courses produced in partnership with the National Weather Service (NWS). Every year, the United States experiences more severe weather than any other country in the world. In order to reduce deaths, injuries, and property losses, emergency managers must work closely with the NWS and the news media to provide effective warnings that can be received and understood by people at risk.</p>	<p>*Predict how people in the community may respond to different types of warnings based on certain social factors * Develop a hazardous weather warning message based on a specific event and the threat it poses to the community * Explain the interlocking sets of activities that work together to form an effective community warning system * Propose improvements to a community's warning system based on identified breakdowns in coordination and communication * Develop warning message for a given scenario that are targeted for delivery by a particular media type * developed a warning coordination and communication strategy for a given scenario.</p>	<p style="text-align: center;">Public Information and Warning</p>	<p style="text-align: center;">Selection Criteria: Intended for local emergency managers</p>	<p style="text-align: center;">Virtual - WA EMD</p>

11/15-11/17/22	<p>G0358 Evacuation and Re-Entry Planning Course This Live, Virtual Instructor Led 12-hour course provides participants with the knowledge and skills needed to design and implement an evacuation and re-entry plan for their jurisdictions. It uses a community's vulnerability analysis and evacuation plan. It also addresses evacuation behavior and recommends methods to make evacuation and re-entry more efficient. This course does not address the decision to evacuate or re-enter.</p>	<p>The persons responsible for planning, implementing, and carrying out evacuations within a jurisdiction. This includes, but is not limited to, state and local government emergency program managers, emergency planners, and response personnel.</p>	<p>Public Information & Warning</p>	<p>Registration preference is given to Washington State and tribal residents. The registration period has not yet opened for the event. Registration starts 8/15/2022.</p>	
11/29-30/2022	<p>G0191 EOC-ICS Interface Virtual, Instructor Led Delivery. The goal of this professional development course, E/L/G 0191 Emergency Operations Center/Incident Command System Interface, is to enable the students to develop an effective interface between the Incident Command/Unified Command and the Emergency Operations Center by applying National Incident Management System principles.</p>	<p>Target Audience: The intended audience(s) are federal, state, tribal, territorial, local level, private industry, volunteer and nongovernmental emergency management personnel who are active in a community's ICS and EOC activities. This course works best when delivered to a combined audience of ICS and EOC personnel. The materials were developed with the assumption that audience members may have little or no actual experience as a member of an Incident Command Post staff or an EOC Staff.</p> <p>Prerequisites: Required:</p> <p>IS-0100 An Introduction to the Incident Command System, ICS 100 IS-0700 An Introduction to the National Incident Management System IS-0800 National Response Framework (NRF), An Introduction IS-0200 Basic Incident Command System for Initial Response, ICS 200 or IS-2200 Basic Emergency Operations Center Functions Visit FEMA's Emergency Management Institute to complete these Independent Study courses</p>	<p>Operational Coordination</p>	<p>Course Manager: Washington EMD Training Team emd.training@mil.wa.gov 253-5112-7021</p>	<p>Virtual WA EMD</p>
