# 2025 SNAPSHOT

This 2025 snapshot summarizes Skagit County Public Health's key activities and accomplishments, reflecting our ongoing commitment to protect and improve the health of Skagit County.

We've accomplished a lot together, and we're excited to share the highlights with you!

## COMMUNICABLE DISEASE

**717** case investigations

sexually transmitted infections, rabies, foodborne illness, respiratory illness, and more

**770** vaccines

435 administered to children  
335 administered to adults

## COMMUNITY HEALTH AND PREVENTION

**564** families received newborn outreach at local hospitals

to promote healthy beginnings for babies and families, with 220 referrals made to community supports

The Community Health Assessment was completed by the Population Health Trust. Data collection and outreach reflected Skagit County's diversity, engaging rural communities, individuals with developmental disabilities, older adults, families, and Spanish-speaking community members

**114** families were supported by resource navigation

300 referrals were made to a wide range of resources including child care, food assistance, housing, mental health services, parenting support, and more

## COMMUNITY SERVICES

**33,447** bed nights of shelter

for people experiencing homelessness at year-round shelters, winter shelters, and temporary severe weather shelters

**396** Veterans served each month on average (Sept-Dec)

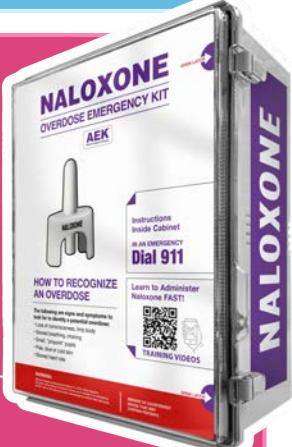

benefit claims, housing assistance, basic needs, and other supportive services

**253,000** syringes exchanged

**868** received prevention and diversion services

to resolve immediate housing crises and avoid homelessness through financial assistance and connections to community resources

**3,418** doses of naloxone distributed

**92** reported overdoses reversed

using county distributed naloxone (91 humans, 1 dog)

## ENVIRONMENTAL HEALTH

**1,658** safety inspections

restaurants, mobile food trucks, camps, pools, water parks, and more

**\$157K** financial assistance

issued to 768 low-income individuals and households for operation and maintenance of their septic system

**72.31** tons of garbage removed

funded through our tipping fee surcharge distributed by our solid waste team

**527** on-site sewer permit applications and plan reviews received

**448** on-site sewer permits issued

## DEVELOPMENTAL DISABILITIES

**46** students connected to long-term support services

The Bridges Program connected students with disabilities in transition programs to long-term support services to support a successful transition from school to adulthood. Services included housing support, transportation assistance, financial aid, and more!

**71%** secured employment

people with developmental disabilities utilizing supported employment services

**\$863k**  
wages earned

## SENIOR SERVICES
