PermitProposal : PL24-0350
Comments : To Skagit County PDS
Attn: Brandon Black

I am writing as a close by neighbor to Schoolhouse Park, who has lived on Edens Rd. for the better part of the last 40 years.

I am in full support of Skagit County Public Works intermittently using the parking lot at Schoolhouse Park to stockpile road gravel material for road work on Guemes Island. This has been the unofficial storage location for as long as I can remember, due to a verbal agreement between past Public Works Directors and the Guemes Community.

This is the most logical and efficient place on Guemes to store material and helps both Skagit County and the Guemes community by lowering the cost of road work and lowering the burden on the ferry during these times.

Please approve this permit.

Thanks to Brandon Black, John Davidson, and all other PDS and PW employees who have worked on this permit.

Respectfully,

Gabe Murphy

PermitProposal : PL24-0350

Comments : I am in favor of this permit PL24-0350 as it restores road gravel storage to the center of Guemes Island, its traditional location, which is the most cost effective distributiou site for use in the maintenance and repair of island roads.

Thank you for your attention to this important correction.

PermitProposal : PL#24-0350

Comments : I want to voice my support for this permit application regarding the development of the site for storage of road materials for Guemes Island.

This is a proper location for the storage of these materials because it is a public location, and central to Island roads. Access for road work is easy from this location, especially the "bridge" on Edens Road. Even though the Schoolhouse Park is adjacent, it does not impinge on any activities there. There are no trails or quiet contemplative spots that will be violated, and no residences there that are occupied.

So, I am in support of designating the area for this purpose.

PermitProposal : PL24-0350
Comments : To Skagit County PDS –

I am writing today on behalf of the Guemes Island Planning Advisory Committee (GIPAC) in support of the Special Use Permit PL24-0350. This permit will allow Skagit County Public Works to intermittently use Schoolhouse Park to stockpile materials for road work on Guemes Island. Schoolhouse Park is centrally located on the island, making this both a logical place for storage and the efficient distribution of materials across the island. This is will keep road travel to a minimum and cause less disruption for island residents, while still providing parking for park users.

We encourage you to approve this permit. It simply makes the most sense for the County and Guemes Island.

Thank you.

Sincerely,

Kathy Malley
President, GIPAC

Attention – Brandon Black.

I am in support of Skagit County Public Works to use the site at schoolhouse Park on Guemes Island, To intermittently use the site as a storage for gravel. I believe it is the best place on the island and I ask you to please approve the permit. Thank you very much for all your work.

PermitProposal : PL24-0350

Comments : My name is Michael Brown and I am a long time Guemes Island Planning Advisory Committee board member. I am in support of this permit to relocate road materials back to Schoolhouse Park. it makes sense in that the county will no longer have to drive through residential neighborhoods a long way from the ferry, instead able to store it at the center of the island.

Thank you,

Michael
