_____)

The Hearing Examiner received an email letter from counsel for the applicant, Apex Farms, dated August 13, 2021. The letter pointed out that the term “infiltration” in Finding of Fact 17 in the Examiner’s decision in this matter was mistaken and that the term used should have been “dispersion.”

The Examiner agrees and hereby amends the Finding to read as follows:

17. The plan is for stormwater to be handled by dispersion on each lot. The applicant’s expert convincingly testified that this can be done. The effect will be that the development will not add to of-site surface runoff.

The counsel’s letter has been treated as a Request for Reconsideration which by this Order is granted.

SO ORDERED, this 24th, day of August, 2021.

Wick Dufford, Hearing Examiner
