**Subject:** Skagit County CP Amendment: PL11-0250 (Lake Erie Trucking)

To Whom It May Concern:

I admit that , as a average resident of Fidalgo Island, I do not know the intricacies of zoning codes.

However, I'm always amazed when someone invests in a piece of property with one zoning code, then decides they can make more money by changing the zoning.

I am opposed to this change because it appears to be increasing density in an inappropriate location that does not have the proper infrastructure. My understanding of the GMA is that development should occur in the zones closer to the city center. I prefer to not see more forest destroyed. I would also be concerned about drainage , since it is on a slope.

Thank you for your consideration,
