Dan-

As we discussed, the 14'x40' bridge off Grip Road (with the two 36" main stringers, 12" cross members, topped by 6" metal framed precast driving or deck surface) has no less than a HS20 rating. It has been inspected; the welds and driving surface materials are currently in good condition.

If you need anything further, please do not hesitate to contact me at the shop.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mike Norris', with a long, sweeping underline.
