Re: Miles Sand & Gravel Mining Special Use Permit (PL16-0097)

Dear Ms. Stevenson,

Thank you for meeting with us this past Wednesday, August 14, 2019, to discuss the additional information requested by the County relative to this application. You indicated that it would be helpful for us to submit a simple list of the technical reports and addendums prepared by third party consultants, particularly as it relates to items that have been updated over the life of the application. The requested Report List is attached and we hope you find it useful. While all of the listed documents should be included in the County's file, please let me know if you are missing anything and we can provide duplicate copies.

It should be noted we did not attempt to re-state the entirety of the record in this list, and it should not be relied upon as such. It is meant as a quick reference guide only. Please feel free to contact me with any questions regarding this attachment or with any other questions you may have regarding this application.

Sincerely,

A handwritten signature in black ink, appearing to read 'Dan Cox', written in a cursive style.

Dan Cox
General Manager

encl: 8-16-2019 Report List
