A variety of natural resource land commercial activities occur or may occur in the area that may not be compatible with non-resource uses and may be inconvenient or cause discomfort to area residents. This may arise from the use of chemicals or from spraying, pruning, harvesting, or mineral extraction with associated activities, which occasionally generates traffic, dust, noise, and odor. Skagit County has established natural resource management operations as a priority use on designated natural resource lands, and area residents should be prepared to accept such inconveniences, inconveniences, or discomfort from normal, necessary natural resource land operations when performed in compliance with best management practices and local, State, and Federal law. In the case of mineral lands, application might be made for mining-related activities including extracting, washing, crushing, stockpiling, blasting, transporting and recycling of minerals. In addition, greater setbacks than typical may be required from the resource area, consistent with SCC 14.16.810. Contact Skagit County Planning and Development Services for details.
