### Proposal Description

Updates to the Countywide Planning Policies (CPP) to bring the policies into consistency with new Growth Management Act requirements relating to housing, climate resilience, and greenhouse gas emissions reduction. The proposed CPP amendments will set the framework for the 2025 Skagit County Periodic Comprehensive Plan Update which is required to be consistent with Skagit County CPPs.

The following amendments to the Countywide Planning Policies are to be considered:

- Housing** - Update the CCPs to address recent legislative changes, such as HB 1220. In addition, consider amending the CCP's to address the following housing topics:
  - Add policy language aimed at significantly increasing housing production within existing UGAs in areas with good access to transit, jobs, and services.
  - Add policy language addressing the siting of publicly funded or subsidized housing, including permanent supportive housing, transitional housing, shelters, and housing for populations with special needs.
  - Add policy language addressing coordination with publicly funded housing authorities.
- Climate** - Review and update the CCP's to address recent legislative changes, such as HB 1181. GMA Goal 14 was adopted in 2023 Section 14: Climate Change and Resiliency.

This GMA goal requires that comprehensive plans address development regulations, and regional policies, plans and strategies under RCW 36.70A.201 and Chapter RCW 47.80 adapt to and mitigate the effects of a changing climate, support reductions in greenhouse gas emissions and per capita vehicle miles traveled; prepare for climate impact scenarios; foster resiliency to climate impacts and natural hazards; protect and enhance environmental, economic, and human health and safety; and advance environmental justice. Proposed revisions presented to the Countywide Planning policies in the linked document address these new legislative requirements under GMA goal 14.

### **SEPA Threshold Determination**

Skagit County determined on January 23, 2025, that this proposal does not have a probable significant adverse impact on the environment and issued a SEPA Determination of Non-Significance (DNS). An environmental impact statement is not required under the State Environmental Policy Act, RCW 43.21C.030(2)(c). This determination was made after review of a completed environmental checklist and other information on file with the lead agency and is available upon request. Pursuant to SCC 16.12.210, no administrative appeal process is available for this legislative action.
