Hi Robby

I have gone through the Public Participation Program and Preliminary Schedule document and have three comments, rather trite:

Page 7, under Outreach Methods, third bullet, I would just have Community Events and omit "/Fairs and Festivals", which sounds almost capricious. Examples are listed below in the text, making the existing heading unnecessary.

Page 7, last bullet, the last sentence makes no sense to me.

Page 8, Key Audiences. It would be interesting to see which are required by state law.

All in all a good document.

Tim

Good morning Commissioners,

Attached is an updated version of the Public Participation Program. The content has not changed, I have only changed some grammar and added some links to the document after receiving some suggested edits.
