Section 4 of Resolution No.15436

SECTION 4. ROAD TYPE DESIGNATOR GUIDELINES

4.1 Road type designators shall follow certain criterion for new or renamed roads. Existing roads may be left as they are unless deemed to be confusing by Public Works.

4.2 Avenue- through roads, not dead-ends, generally in urban service areas or in areas once platted as towns.

4.3 Boulevard- a through road, can be divided by a landscaped center island.

4.4 Circle- a short road that returns to itself.

4.5 Court- a minor road less than 1000 feet in length, ending in a turnaround.

4.6 Drive- a through road or a scenic throughway.

4.7 Highway- usually state or federal highways, but can be a county road. Most count "highways" are former state highways that were turned back to the county.

4.8 Interstate- roads of the highest order, characterized by limited access, wide right-of-way, etc.

4.9 Lane-generally connotates a minor road, generally a dead end.

4.10 Loop- a minor road of limited length forming a closed loop, which begins and ends in the same road.

4.11 Parkway- generally a scenic or landscaped route or park drive.

4.12 Place- generally connotates a minor road of limited length, often a dead-end or cul-de-sac.

4.13 Road- generally thoroughfares that are frequently used, and have heavier traffic volume.

4.14 Street- through street, not dead-ends, generally in urban service areas or areas once platted as towns.

4.15 Terrace- a minor road of limited length, connotates on a hillside.

4.16 Trail- a minor road, possible curvilinear, possibly wooded.

4.17 Way- generally a minor road.
