

Below are the results from regular biweekly sampling on Tuesday, 12/21. Mostly quite low except a minor hit at Edison Slough. Further below are results from Friday, December 17, which were not as good.

Tuesday, December 21:

Location	Site Number	FC, cfu/100 mL	Duplicate
Thomas Creek at Hwy 99	3	8	
Thomas Creek at F&S Grade Road	4	30	
Friday Creek at Prairie Rd	6	50	
Swede Creek at Grip Rd	8	30	
Samish River at Hwy 9	11	2	
Samish River at Thomas Rd	32	22	30
Alice Bay Pump Station	33	70	
Edison Slough at School	36	130	
Edison Pump Station	37	50	
North Edison Pump Station	38	80	
Colony Creek at Colony Rd	39	4	

Friday, December 17:

Samish River at Thomas Road: 300 cfu and 500 cfu
 Field runoff at Farm to Market Rd: 500 cfu

The Friday results were surprising in that the river counts had been declining all week along with the river after the flooding earlier in the week. The high numbers on Friday came without any significant additional rainfall or river rise.
