27	Little Mountain Road (Drainage & Reconstruction)
28	March's Point Road (Stabilization & Repair)
29	North Fork Skagit Bridge Replacement (#40037)
30	North Fruitdale / Kalloch Road Arterial Improvements
31	North Shore Drive (Lake Cavanaugh)
32	Peter Johnson Road - Railroad Grade Crossing Safety Improvements
33	Peterson Road (Urban)
34	Skagit River Marblemount Bridge
35	South Shore Road (Guemes Island)
36	SR 20 / Campbell Lake Road—Roundabout
37	Starbird Road Culvert Replacement at Fisher Creek
38	Thomas Creek Bridge (Old Hwy 99 N)

2023-2028

SIX-YEAR TRANSPORTATION IMPROVEMENT PROGRAM THESE NEW PROJECTS ARE BEING CONSIDERED FOR INCLUSION ON THE 2023-2028 SIX-YEAR TRANSPORTATION IMPROVEMENT PROGRAM

Josh Wilson Road Phase 2A

This project will stabilize and reconstruct the failing road base and will include bringing the roadway up to current design standards. The project limits are from SR 11 to Pulver Road.

(Pg 35)

North Osterman Creek Culvert Replacement (Bridge)

This project will replace a failed culvert due to the 2021/2022 storms with a bridge. The project is currently in design and is going through the FEMA process obtain funding.

(Pg 43)

South Osterman Creek Culvert Replacement

This project will replace a failed culvert due to the 2021/2022 storms. A final decision has not been determined as to the ultimate replacement of the culvert will be. This project is also going through the FEMA process to obtain funding.

(Pg 50)

Old Highway 99 North / Bow Hill Road Intersection Improvements

This project will review and design intersection improvements at the intersection of Old Highway 99 and Bow Hill Road / Prairie Road .

(Pg 45)

Preventative Maintenance Bridge Deck Bundle

This project has been awarded \$1,613,000 in Federal funding to repair the failing bridge decks on three bridges:

- Cascade River Bridge (Rockport Cascade Highway)
- Pressentin Creek Bridge (South Skagit Highway)
- Samish River Bridge (F & S Grade Road)

(Pg 48)

Fonk Road Culvert Replacement

This project will replace the failing culvert and stabilize the roadway.

(Pg 19)

Guemes Island Ferry Operational Cost

This project will use Ferry Boat Program Funding (\$350,740) to help supplement the operational cost of staffing and fuel for the Ferry for 2023.

(Pg 30)

Concrete Sauk Valley Road Bank Stabilization MP 3.7

This project will design and construct stabilization measures on Concrete Sauk Valley Road at or near milepost 3.7 due to the erosion of the riverbank and threatening the roadway.

(Pg 9)

THESE PROJECTS ARE ANTICIPATED TO REMAIN ON THE 2023-2028 TRANSPORTATION IMPROVEMENT PROGRAM

ADA Transition Plan

Per the American Disability Act, we are required to create an ADA Transition Plan to address barriers that will identify non-complaint ADA issues within County Road right of way. The plan will identify and evaluate barriers that will include strategies to prioritize and remove them and meet ADA requirements in the future.

(Pg 1)

2023 Asphalt Overlay Project

This program reviews pavement rating data in conjunction with Operations Division input on a yearly basis to determine which asphalt roadways to resurface. The tentative overlay project for 2023 is to overlay the remaining 1 mile of Pioneer Hwy from Fishers Slough the Conway Roundabout that will be determined by the County Engineer and available budget.

(Pg 2)

Bay View Edison Joe Leary Slough Bridge

This project has secured \$487,400 in funding through the Federal Highways Bridge Program to replace/repair the bridge deck and make minor repairs to the bridge. Currently the majority of the bridge deck is in condition state 2 (patched) or condition state 3 (loss of material or delaminating).

(Pg 3)

Barrier Protection (Guardrail)

This awarded was awarded \$656,000 in Federal Highway Safety Improvement Program funding to install barrier protection at locations on Baker Lake Road, Mud Lake Road, and South Skagit Highway to help reduce run off road crashes.

(Pg 4)

Bradshaw Road Rehabilitation

This work will improve the shoulders and roadway between McLean Road and Summers Drive to stabilize the road surface. Design of the project is scheduled for 2024 and is anticipated to go to construction in 2025.

(Pg 5)

Bulson Road Culvert Replacement

This project will replace an undersized culvert and fish passage barrier under Bulson Road to improve drainage and make it fish passable. The project is seeking funding through the Salmon Recovery Funding Board

(Pg 6)

Cedardale Road Culvert Replacement (Fisher Creek)

This project will replace an old fish ladder culvert and replace it with a bridge to improving fish passage under Cedardale Road. Design is complete, and funding through the Salmon Recovery Funding Board is being sought for construction of the project.

(Pg 7)

Centennial Trail (Big Rock to Clear Lake) – (On Regional TIP)

This project will design a non-motorized path from Big Rock to Clear Lake as part of the connection or portion of the Centennial Trail that currently runs through Snohomish County. Survey was completed in 2016 and the County was awarded \$215,250 in Federal funding to complete the design phase of the project. Skagit Public Utility District is currently clearing the trail and installing waterline. We will be seeking additional funding for the construction phase through various grant programs as they become available.

(Pg 8)

Concrete Sauk Valley Road (Milepost 13.0)

The Sauk River is eroding land and has encroached on Concrete Sauk Valley Road. Preliminary counter measures were installed in 2013, but the County will need to determine a permanent repair to stabilize the bank and stop the erosion into Concrete Sauk Valley Road. The County has hired the firm Natural System Design in 2018 to provide Public Works with three alternative repairs and bring the selected one to a 30% design. This will help in obtaining grant funding for construction.

(Pg 10)

Cook Road / I-5 Interchange Vicinity Improvements (On Regional TIP)

The State and County will work together on this project will review, design, and construct short term solutions to relieve congestion at the I-5 / Cook Road / Old Hwy 99 interchange and vicinity. The County was recently awarded \$5,580,000 to make improvements.

(Pg 11)

Edens Road

This project will raise and widen Edens Road through a wetland area on Guemes Island due to flooding caused by native beavers. The County has installed a temporary fix raising the road, but still requires a permeant fix to meet road standards.

(Pg 12)

Francis Road Section 1, milepost 5.05 to 5.66 – (On Regional TIP)

This project has completed the design phase and right of way phase. The project will reconstruct, widen, and address drainage concerns on this section of Francis Road to current standards and improve safety. This section of Francis Road that intersects with State Route 9 has been awarded grant funding through the State's Rural Arterial Preservation (RAP) program for \$900,000. In addition, the County was awarded \$250,000 in Federal Surface Transportation Program funding to help with design. Construction is planned for spring of 2023.

(Pg 20)

Francis Road Section 3, milepost 2.87 to 3.85 – (On Regional TIP)

This project will reconstruct, widen, and address drainage concerns on this section of Francis Road to current standards and improve safety. We were awarded Federal Surface Transportation Program funding of \$480,075 to start design and right-of-way acquisition. We have also secured \$800,000 in Federal funding, \$750,000 in Highway Safety Improvement Program (Federal), and \$1,487,221 in State Rural Arterial Preservation Program funding. Including local match, the County has secured funding totaling \$3,594,296 for this project.

(Pg 21)

Francis Road Section 4, milepost 1.48 to 2.75

This project will reconstruct, widen and re-align the roadway, and widen the existing bridge to current standards. We will seek funding for this section of road through CRAB and other viable funding sources.

(Pg 22)

Garden of Eden Road Culvert Replacement

This project will replace an undersized failing culvert and replace it with a fish passable culvert to improve fish passage under Garden of Eden Road. Design is complete, and it is anticipated construction funding will be allocated through the County Road Fund.

(Pg 23)

Government Bridge (Miner Repairs and Paint)

This project will perform minor repairs, clean, and paint the Government Bridge over the Sauk River on Concrete Sauk Valley Road. There is currently no secured funding, however we will be seeking funding through the Federal Bridge Program.

(Pg 24)

Green Road Rehabilitation

This work will improve the shoulders, roadway and drainage between Cook Road and Kelleher Road stabilizing the road to improve the road surface.

(Pg 25)

Guemes Ferry Trail

This project was vetted by the Guemes Ferry Trail Committee on Guemes Island. It will include the design and construction of a multi-use path from the Guemes Island Ferry Terminal to Schoolhouse Park. The trail will use Guemes Island Road right-of-way where available to construct the trail. Skagit County Parks is expending minimal funding on the design. However, the trail committee is collecting donations and along with Skagit County, is seeking grant funding for the design and construction cost of this trail.

(Pg 27)

Josh Wilson Road Phase 2

This project will stabilize and reconstruct the failing road base and will include bringing the roadway up to current design standards. The project limits are from Pulver Road to Avon Allen Road.

(Pg 34)

Josh Wilson Road Phase 3

This project will stabilize and reconstruct the failing road base and will include bringing the roadway up to current design standards. The project limits are from Jensen Lane to Emily Lane.

(Pg 36)

Josh Wilson Road Phase 4

This project will stabilize and reconstruct the failing road base and will include bringing the roadway up to current design standards. The project limits are from Higgins Airport Way to Farm To Market Road.

(Pg 37)

Lane Departure Reduction – Signing and Delineation Improvements

This project was awarded \$855,000 in Federal Highway Safety Improvement Program funding to install various guidance measures to reduce run off the road crashing, in additions to installing LED Stop Signs at intersections with a crash history. The project is currently in the design phase.

(Pg 38)

Little Mountain Road (Drainage & Reconstruction)

Improve and replace failing culverts, improving drainage and restore the road base on Little Mountain Road from the intersection of Amick Road to West Big Lake Blvd.

(Pg 39)

March's Point Road (Stabilization & Repair)

This project will stabilize and repair the failing road base along the eastern side of March's Point. The road is failing in numerous locations from North Texas Road to the north end of the road due to tidal influence and subpar road base. Skagit County is currently seeking grant funding for this project.

(Pg 40)

North Fork Skagit Bridge Replacement (#40037)

A Type, Size, and Location Study was completed in 2011. This bridge connects Fir Island to the western county and is an important route carrying freight and farming traffic. It is also a detour route for I-5 due to emergency closures and overweight and size loads. The bridge is not load restricted at this time but is a fracture critical bridge and is functionally obsolete. The current estimated replacement cost for this bridge is \$42 Million. We will continue to perform maintenance and repairs on the bridge, while seeking funding for replacement.

(Pg 41)

North Fruitdale/Kalloch Road Arterial Improvements

This project will seek grant funding to widen and reconstruct Fruitdale Road and Kalloch Road in cooperation with the City of Sedro-Woolley and the business park development on the Northern State Property.

(Pg 42)

North Shore Drive – Lake Cavanaugh (Slide Repair)

This project will design and repair a slide on North Shore Drive where the embankment has slid into the lake and damaged the road base and surface. Preliminary design investigations are underway.

(Pg 44)

Peter Johnson Road – Railroad Grade Crossing Safety Improvements

This project will upgrade the safety features of the Peter Johnson Road At-Grade Railroad Crossing, installing train activated signals and gates with constant warning time circuitry. Funding for this project \$604,000 has been secured and we are working with BNSF to start design.

(Pg 46)

Peterson Road (Urban)

This project has received Surface Transportation Program funding of \$261,613 to begin design in by 2024 and will seek additional funding through the Transportation Improvement Board (TIB) to bring Peterson Road up to urban standards with curb, gutter, and sidewalks to match existing to the east. The project will connect the Bayview neighborhood to the Port of Skagit and their trail system

(Pg 47)

Skagit River Marblemount Bridge (On Regional TIP)

This project will clean, perform repairs, and paint the Skagit River Marblemount Bridge on Cascade River Road. There is currently 18 million in secured funding, funding through the Federal Bridge Program.

(Pg 49)

South Shore Road (Guemes Island)

This project is to continue to explore ways to stabilize and route South Shore Road.

(Pg 51)

SR 20 / Campbell Lake Road – Roundabout

This project would be coordinated with the Samish Indian Nation, WSDOT, and Skagit County to construct a three-legged roundabout at the intersection of SR 20 / Campbell Lake Road to improve safety, level of service, and access to the Samish Indian Nation Land.

(Pg 52)

Starbird Road Culvert Replacement (Fisher Creek)

This project will replace an undersized culvert and replace it with a fish passable culvert to improving fish passage under Starbird Road. Design is completed and funding through the Salmon Recovery Funding Board is being sought for construction of the project.

(Pg 53)

Thomas Creek Bridge (Old Hwy 99 N)

This project was awarded \$6 million to replace the Thomas Creek Bridge. This bridge is one of a few remaining timber structure bridges in the County.

(Pg 54)

GUEMES ISLAND FERRY PROJECTS

Guemes Ferry Electric Shore-Side Facilities

This project will construct the electrical shore-side infrastructure that includes a charging station, battery storage facility, and charging station/hookup from the terminal to the electric ferry. The project is nearing completion of design and will be moving forward with construction in 2023/2024.

(Pg 26)

Guemes Island Electric Ferry Project

This project will replace the current 21 vehicle Guemes Island Ferry with a new electric powered 28 vehicle ferry.

(Pg 28)

Guemes Island Ferry Electronic Ticketing System

This project will purchase an Electronic Ticketing System to streamline ticket sales and improve loading times.

(Pg 29)

Guemes Island Ferry Parking Lot Improvements and Passenger Shelter

This project will grade and make improvements to the surface condition of the parking lot. It will also replace the aging passenger shelter with a new one.

(Pg 31)

Guemes Island Ferry Terminal Modifications Project

This project will modify the Anacortes Ferry Terminal to accommodate the new larger Electric Ferry. This includes but not limited to apron modifications and dolphin upgrades. This project was separated out of the Electric Shore-Side Facilities project. (FTA Funding)

(Pg 32)

Guemes Island Ferry Terminals – Cathodic Protection

This project will design and install Cathodic Protection for both Guemes Ferry Terminals.

(Pg 33)

EMERGENT / MISCELLANEOUS PROJECTS FOR 2023-2028

Emergent Fish Passage & Culvert Projects

These are emergent projects for water conveyance and fish passage projects.

(Pg 13)

Emergent Non-Motorized Projects

These projects are for emergent non-motorized type project.

(Pg 14)

Emergent Safety Improvement Projects

These projects are for emergent safety projects.

(Pg 15)

Emergent School Safety Projects

These projects are for emergent school safety projects, school zones, school bus stops.

(Pg 16)

Emergent Slope Stabilization Projects

These projects are for emergent slope stabilization projects.

(Pg 17)

Fish Barrier Improvement Projects

These projects will look at removing/replacing culverts that are fish barriers based on a prioritization list developed by Skagit County and other agencies such as Skagit River Systems Cooperative, Skagit Fisheries Enhancement Group, Upper Skagit Indian Tribe, and the Skagit Watershed Council.

(Pg 18)

THESE PROJECTS WILL BE DELETED FROM THE 2022-2022 SIX-YEAR TRANSPORTATION IMPROVEMENT PROGRAM

The following projects or studies were determined to be complete, or scheduled for completion, or are no longer required in the TIP

Active Warning Signs

This project received Federal Highway Safety Improvement Program funding to install Active Warning Ice Caution Signs on road locations where ice was a contributing factor to the crash. Due to delay and other issues the project went out to Bid in 2022 but receive no bidders. We are currently working with WSDOT/Fed on a public interest finding to allow the County to install the signing.

Cedar Grove Fish Passage Improvement

This project will remove a fish passage barrier (culvert) and replace it with a pedestrian bridge to restore fish passage into Ovenell Slough.

Illuminate Channelized Intersections

This project installed or is in the process of installing illumination at three of the County's intersections with channelization to improve night-time safety – Best Road at Chilberg Road, Havekost Road at Marine Drive, and South Skagit Highway at Concrete Sauk Valley Road. The County received Highway Safety Improvement Program grant funding for this project.

Prairie Road Guidance Improvements

This project will install signing and roadway guidance improvements along the entirety of Prairie Road from Old Hwy 99 to SR 9. We are seeking Highway Safety Improvement Program grant funding. The County received Highway Safety Improvement Program grant funding for this project. This project we previously on the 2021 TIP and scheduled for construction, however, due to delay and other issues the project has been rescheduled to move forward in 2022.

Sinclair Island Marine Access (# 40160)

This project is to determine viable options for the replacement of the dock facility; staff continues to seek grant funding for this project. Currently due to budget restraints and right of way restraints this project has dropped off of our six-year outlook at this time.

Upper Finney Creek Bridge (Seismic Retrofit)

The County received over \$3 million in grant funding to seismic retrofit Upper Finney Creek Bridge on Finney Creek Road. In addition to the seismic retrofit this work will also increase the "Load Capacity" of the bridge that would allow it to accommodate loaded logging trucks or other mining activities that are currently restricted from using it. This project is currently in the construction phase and is anticipated to be completed late 2022 or early 2023
