

FLOOD CONTROL MEETING SET

Plans to send a representative to Washington, D. C., to seek action on flood control work at the Burlington bend will be discussed at a meeting of farmers and Burlington city officials scheduled for Monday evening, August 25.

A committee of seven farmers met with Mayor Wilson of Burlington and a representative of the chamber of commerce of that city Tuesday, at which time the proposal to send a representative to Washington, D. C., was discussed.

Spokesman at the meeting declared that abandonment of the proposed channel to divert flood waters has created an emergency and that valuable farm lands as well as the city of Burlington itself is in danger of immediate damage.

All interested persons have been urged to attend the meeting Monday evening in Burlington, which is scheduled to be held at the city hall at 8 p. m.
