Fonk Road Culvert Repair Project - RFQ Questions

Date: September 25, 2024

No.	Question or Remark	Response
1	Because the submittal package (cover letter plus SOQ) must not exceed seven (7) pages (single-sided, letter size), should we not include a front cover/title page? We see that exceeding the limit will result in a 5-point deduction.	It is up to the Consultant to determine what to include in their submittal to best meet the Evaluation Criteria while adhering to the page count requirements listed in the RFQ
2	We saw your RFQ for the Fonk Road Culvert Repair Project, and are curious whether we would be disqualified from applying because we do not have an audited WSDOT Safe Harbor rate?	Because this project is funded through a FEMA Emergency Assistance fund, the County is required to follow Federal Procurement Regulations. As such, the County has chosen to follow the WSDOT Local Agency A&E Professional Services Negotiated Hourly Rate Agreement to ensure we meet those requirements. With that said, the selected consultant for this project must have a WSDOT approved ICR or SHR letter.
