EXAMINATION OF BID AND CONTRACT DOCUMENTS, SITE, AND SITE CONDITIONS: The Bidder shall carefully examine the Bid Documents as defined in Section 1-01.3 of the 2024 Standard Specifications for Road, Bridge, and Municipal Construction.

Submittal of a bid shall be conclusive evidence that the Bidder has made these examinations and understands all requirements for the performance of the completed Project. The Bidder further warrants, agrees, and acknowledges by submitting a Bid that the Bidder:

1. Has taken steps reasonably necessary to ascertain the nature and location of the Work;
2. Has investigated and satisfied himself/herself as to the general and local conditions, which can affect the Work or its cost, including but not limited to:
 - a. Conditions bearing upon acquisition, transportation, disposal, handling, and storage of materials;
 - b. The availability of labor, materials, water, electric power, and roads;

- c. Uncertainties of weather, river stages, tides, or similar physical conditions at the site;
 - d. The conformation and condition of the ground;
 - e. The character of equipment and facilities needed preliminary to and during Work performance; and
 - f. The site biological hazards and associated physical hazards.
3. Has satisfied himself/herself as to the character, quality, and quantity of surface and subsurface materials or obstacles to be encountered insofar as this information is reasonably ascertainable from an inspection of the Work site (including material sites) as well as from the Bid Documents and other information made a part of this Contract; and
 4. Has satisfied himself/herself as to the adequacy of time allowed for the completion of the physical Work on the Contract.

Any failure of the Bidder to take the actions described and acknowledged in this clause shall not relieve the Bidder from responsibility for estimating properly the difficulty and cost of successfully performing the Work, or from proceeding to successfully perform the Work without additional expense to the Contracting Agency.

The Bidder agrees that the Contracting Agency shall not be liable to it on any claim for additional payment or additional time or any claim whatsoever if the claim directly or indirectly results from the Bidder's failure to investigate and familiarize himself/herself sufficiently with the conditions under which the Contract is to be performed.

The Bidder shall be familiar and comply with all Federal, State, tribal, and local laws, ordinances, and regulations which might affect those engaged in the Work. The Contracting Agency will not consider any plea of misunderstanding or ignorance of such requirements.

Bid prices shall reflect what the Bidder anticipates the cost of completing the Work to be, including furnishing all material, labor, equipment, and Subcontractors, and other facilities and all management, superintendent's labor and service as outlined in the Provisions, except as may be provided otherwise in the Contract documents. Except as the Contract may provide, the Bidder shall receive no payment for any costs that exceed those in the bid prices. In the event of a discrepancy between the unit price and the total price, the unit price will govern and Skagit County will correct total price accordingly.

The Contractor shall bear all cost for such insurance as provided in Section 1-07.10. No Claim shall be allowed because of any ambiguity in the Contract if:

1. The Bidder discovers an ambiguity but fails to notify the Contracting Agency, or
2. The Bidder failed to discover a patent ambiguity that would be discovered by a reasonably prudent contractor in preparing its Bid.

Any prospective Bidder desiring an explanation or interpretation of the Bid Documents, shall request the explanation or interpretation in writing by 4:30 p.m. on Friday, September 13, 2024 to allow a written reply to reach all prospective Bidders before the submission of their Bids. Oral explanations, interpretations, or instructions given by anyone before the Award of a Contract will not be binding on the Contracting Agency.

Any information given a prospective Bidder concerning any of the Bid Documents will be furnished to all prospective Bidders as an Addendum if that information is deemed by the Contracting

Agency to be necessary in submitting Bids or if the Contracting Agency concludes that the lack of the information would be prejudicial to other prospective Bidders.

BID PROCEDURES AND CONDITIONS

PROPOSAL FORMS: The Contracting Agency will provide a proposal form for any project on which the Bidder is eligible to bid.

The proposal form will identify the project, list estimated quantities, units of measurement, the items of work, and the materials to be furnished at the unit bid prices. The Bidder shall complete spaces on the proposal form that call for information such as: unit prices; extensions; total bid amount; signatures; date; retail sales taxes; the Bidder's name, address, telephone number, and signature.

PREPARATION OF PROPOSAL: The Contracting Agency will accept only those Proposals properly executed on forms it provides.

All prices shall be in legible figures (not words) written in ink or typed. The Proposal shall include:

- A unit price for each item (omitting digits more than four (4) places to the right of the decimal point)
- An extension for each unit price (omitting digits more than two (2) places to the right of the decimal point)
- The total Contract price (the sum of all extensions)

SIGNATURES: Bids shall be signed by one of the legally authorized officers of said corporation. If awarded the contract, the Contract shall also be so executed. If a Bid Proposal or Contract is signed by an agent, the agent shall provide satisfactory evidence of authority to sign as legal representative of Bidder, upon request of Skagit County. An authorized partner of a co-partnership may sign the contract, subject to the approval of the attorney, who may at his discretion, require each and every member of the co-partnership to sign the contract.

DELIVERY OF PROPOSAL: Sealed bids will be received by the Board of Skagit County Commissioners. Bids must be received no later than 2:30 p.m. on **Monday, September 23, 2024** according to the SKAGIT COUNTY COMMISSIONERS' reception desk clock. All bid envelopes must be plainly marked on the outside, "Sealed Bid: Nookachamps Creek Riparian Restoration." and delivered to the address below.

Hand-deliver or mail Proposal to:
Skagit County Commissioners
1800 Continental Place, Suite 100
Mount Vernon, WA 98273

It is the Contractor's responsibility to allow enough time for delivery to occur before the designated time. Quotations delivered to locations other than as indicated above or received after the designated time will not be accepted. Incomplete proposals cannot be considered. Oral, telephonic, telegraphic, electronic, or faxed proposals will not be accepted.

Skagit County reserves the right to reject any or all bids, waive informalities, and make the award in the best interest of Skagit County. Quotation results and questions pertaining to this project can be obtained by calling Emily Derenne, Habitat Restoration Project Manager, at 360-416-1449. Bids remain confidential and no information about bids is released until the public information of the bids is otherwise available.

The Contracting Agency will not open or consider any Proposal when the Proposal or Bid deposit is received after the time specified for receipt of Proposals or received in a location other than that specified for receipt of Proposals unless an emergency or unanticipated event interrupts normal work processes of the Contracting Agency so that Proposals cannot be received.

If an emergency or unanticipated event interrupts normal work processes of the Contracting Agency so that Proposals cannot be received at the office designated for receipt of bids as specified above the time specified for receipt of the Proposal will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which the normal work processes of the Contracting Agency resume.

BID BOND DEPOSIT/GUARANTY: Pursuant to Title 36.32.250 RCW, no bid will be considered unless accompanied by a surety company bid bond, Cashier's or certified check payable to the order of Skagit County for a sum not less than five percent (5%) of the estimated bid amount. Should the successful Bidder fail to enter into such contract, the bid bond will be forfeited to Skagit County.

Any proposal bond shall be on a form acceptable to the Contracting Agency and shall be signed by the Bidder and the Surety. A proposal bond shall not be conditioned in any way to modify the minimum five percent (5%) required. The Surety shall: (1) be registered with the Washington State Insurance Commissioner, and (2) appear on the current Authorized Insurance List in the State of Washington published by the Office of the Insurance Commissioner.

The failure to furnish a Bid deposit of a minimum of five percent (5%) with the Bid or as a physical supplement to the electronic Proposal Form shall make the Bid nonresponsive and shall cause the Bid to be rejected by the Contracting Agency.

NON-COLLUSION: Submittal and signature of the non-collusion certificate confirms the Bid is genuine and not a sham or collusive, and not made in the interest of any person not named, and that the Contractor has not induced or solicited others to submit a sham offer, or to refrain from proposing.

CONSIDERATION OF BIDS: After opening and reading Proposals, the Contracting Agency will check them for correctness of extensions of the prices per unit and the total price. If a discrepancy exists between the price per unit and the extended amount of any bid item, the price per unit will control. The total of extensions, corrected where necessary, will be used by the Contracting Agency for Award purposes and to fix the amount of the Contract Bond.

The right is reserved by the Contracting Agency to waive informalities in the bidding, accept a Proposal of the lowest responsible Bidder, reject any or all Bids, republish the call for Bids, revise or cancel the Work, or require the Work to be done in another way, if the best interest of the Contracting Agency is served.

A Bidder who wishes to claim error after the Bids have been opened and read as required by Title 47.28.090 RCW shall promptly notify the Contracting Agency that an error occurred. The Bidder shall submit a notarized affidavit or declaration under penalty of perjury signed by the Bidder and accompanied by the work sheets used in the preparation of the Bid, requesting relief from the responsibilities of Award. The affidavit or declaration shall describe the specific error(s) and certify that the work sheets are the ones used in preparing the Bid.

The affidavit or declaration shall be submitted no later than 4:30 p.m. on the first business day after Bid opening (Tuesday, September 24, 2024) or the claim will not be considered. The Contracting Agency will review the affidavit or declaration and the certified work sheets to determine the validity of the claimed error and if the error is of the kind for which the law allows relief from forfeiture of the Bid deposit. If the Contracting Agency concurs in the claim of error and determines that the error is of the kind which allows relief from forfeiture, the Bidder will be relieved of responsibility and the Bid deposit of the Bidder will be returned. If the Contracting Agency does not concur in the error or determines that the error is not the kind for which the law allows relief, the Contracting Agency may Award the Contract and if the Bidder refuses to execute the Contract, the Bidder's Bid deposit shall be forfeited as required by Title 47.28.100 RCW. Title 39.04.107 RCW applies, thereafter.

NON-RESPONSIVE BIDS: Any Bid that does not comply with these instructions, is not signed, supplements or deviates from the specifications herein, or is incomplete, may be declared non-responsive by Skagit County and not further considered.

PROTESTS: Protests will be in accordance with all RCWs, as applicable.

CONTRACT

EXECUTION OF CONTRACT: Successful Bidder is allowed a maximum of **ten (10)** calendar days after the award date to return the signed contract, contract bond, all required insurance certifications, and any other required documentation as specified in this document.

Until the Contracting Agency executes a Contract, no Proposal shall bind the Contracting Agency nor shall any Work begin within the project limits or within Contracting Agency-furnished sites. The Contractor shall bear all risks for any Work begun outside such areas and for any materials ordered before the Contract is executed by the Contracting Agency.

If the Bidder experiences circumstances beyond their control that prevents return of the Contract documents within ten (10) calendar days after the Award date, the Contracting Agency may grant up to a maximum of ten (10) additional calendar days for return of the documents, provided the Contracting Agency deems the circumstances warrant it.

CONTRACT DOCUMENTS: The Addenda, Bid Proposal, General and Contract Provisions and Specifications, and Contract, shall be a part of and constitute the Contract entered into by Skagit County and successful Bidder. In the event there is discrepancy between any of the foregoing contract documents, the above order of documents governs so that the former prevails over the latter.

CONTRACT BOND: Pursuant to Title 39.08 RCW, the successful Bidder shall provide an executed contract bond for the full contract amount. This contract bond shall:

1. Be on a Contracting Agency-furnished form;

2. Be signed by an approved Surety (or Sureties) that:
 - a. Is registered with the Washington State Insurance Commissioner, and
 - b. Appears on the current Authorized Insurance List in the State of Washington published by the Office of the Insurance Commissioner,
3. Be conditioned upon the faithful performance of the contract by the Contractor within the prescribed time;
4. Guarantee that the Surety shall indemnify, defend, and protect the Contracting Agency against any claim of direct or indirect loss resulting from the failure:
 - a. Of the Contractor (or any of the employees, subcontractors, or lower tier subcontractors of the Contractor) to faithfully perform the contract, or
 - b. Of the Contractor (or the subcontractors or lower tier subcontractors of the Contractor) to pay all laborers, mechanics, subcontractors, lower tier subcontractors, material or any other person who provides supplies or provisions for carrying out the work;

The Contracting Agency may require Sureties or Surety companies on the Contract Bond to appear and qualify themselves. Whenever the Contracting Agency deems the Surety or Sureties to be inadequate, it may, upon written demand, require the Contractor to furnish additional Surety to cover any remaining work. Until the added Surety is furnished, payments on the Contract will stop.

RETAINAGE: Pursuant to Title 60.28 RCW, a sum of five percent (5%) of the monies earned by the Contractor will be retained from progress estimates. Such retainage shall be used as a trust fund for the protection and payment (1) to the State with respect to taxes imposed pursuant to Title 82 RCW, and (2) the claims of any person arising under the Contract. Monies retained under the provisions of Title 60.28 RCW shall, at the option of the Contractor, be:

1. Retained in a fund by the Contracting Agency; or
2. Deposited by the Contracting Agency in an escrow (interest-bearing) account in a bank, mutual saving bank, or savings and loan association (interest on monies so retained shall be paid to the Contractor). Deposits are to be in the name of the Contracting Agency and are not to be allowed to be withdrawn without the Contracting Agency's written authorization. The Contracting Agency will issue a check representing the sum of the monies reserved, payable to the bank or trust company. Such check shall be converted into bonds and securities chosen by the Contractor as the interest accrues.

At the time the Contract is executed the Contractor shall designate the option desired. The Contractor in choosing option (2) agrees to assume full responsibility to pay all costs that may accrue from escrow services, brokerage charges or both, and further agrees to assume all risks in connection with the investment of the retained percentages in securities. The Contracting Agency may also, at its option, accept a bond in lieu of retainage.

Release of the retainage will be made sixty (60) days following the Completion Date (pursuant to Title 39.12 RCW, and Title 60.28 RCW) provided the following conditions are met:

1. On Contracts totaling more than \$35,000, a release has been obtained from the Washington State Department of Revenue.
2. Affidavits of Wages Paid for the Contractor and all Subcontractors are on file with the Contracting Agency (Title 39.12.040 RCW).

3. A certificate of Payment of Contributions Penalties and Interest on Public Works Contract is received from the Washington State Employment Security Department.
4. Washington State Department of Labor and Industries (in accordance with Section 1-07.10) shows the Contractor is current with payments of industrial insurance and medical aid premiums.
5. All claims, as provided by law, filed against the retainage have been resolved. In the event claims are filed and provided the conditions of 1, 2, 3, and 4 are met, the Contractor will be paid such retained percentage less an amount sufficient to pay any such claims together with a sum determined by the Contracting Agency sufficient to pay the cost of foreclosing on claims and to cover attorney's fees.

INSURANCE: Contractor shall comply with the following conditions and procure and keep in force during the term of this Agreement, at Contractor's own cost and expense, the following policies of insurance with companies authorized to do business in the State of Washington, which are rated at least "A" or better and with a numerical rating of no less than seven (7), by A.M. Best Company and which are acceptable to the County.

1. Commercial General Liability Insurance on an occurrence basis in an amount not less than \$1,000,000 per occurrence and at least \$1,000,000 in the annual aggregate, including but not limited to: premises/operations (including off-site operations), blanket contractual liability and broad form property damage.
2. Business Automobile Liability Insurance in an amount not less than \$1,000,000 per occurrence, extending to any automobile.
3. Workers' Compensation Insurance as required by Washington law and Employer's Liability Insurance (Stop Gap) with limits not less than \$1,000,000 per occurrence. If the County authorizes sublet work, the Contractor shall require each Subcontractor to provide Workers' Compensation Insurance for its employees, unless the Contractor covers such employees.

The above liability policies shall contain a provision that the policy shall not be canceled or materially changed without thirty (30) days prior written notice to the County. No cancellation provision in any insurance policy shall be construed in derogation of the continuous duty of the Contractor to furnish the required insurance during the term of this Agreement.

Upon written request by the County, the insurer or his/her agent will furnish, prior to or during any Work being performed, a copy of any policy cited above, certified to be a true and complete copy of the original.

ADDITIONAL INSURED: Prior to the Contractor performing any Work, Contractor shall provide the County with a Certificate of Insurance acceptable to the County Risk Manager evidencing the above-required insurance and naming Skagit County, its officers, employees and agents as Additional Insureds on the Commercial General Liability Insurance policy and the Business Automobile Liability Insurance policy with respect to the operations performed and services provided under this Agreement and that such insurance shall apply as primary insurance on behalf of such Additional Insureds. Skagit County and Clear Valley Environmental (the landowner) shall be named as an Additional Insured by endorsement using ISO Form CG 2010 or equivalent. Receipt by the County of any certificate showing less coverage than required is not a waiver of the Contractor's obligations to fulfill the requirement.

The Certificate must name the County as additional insured, and state: Skagit County, its elected officials, officers and employees are named as additional insured. Clear Valley Environmental is also named as additional insured.

The insurance policies required in this Contract are to contain and be endorsed to contain the following provisions:

With respect to all Liability Policies:

Any insurance and/or self-insurance maintained by Skagit County, its officers, officials, employees, agents and consultants shall not contribute with the Contractor's insurance or benefit the Contractor in any way.

An additional insureds endorsement template can be provided by Skagit County, upon request.

PUBLIC WORKS PROJECT – PREVAILING WAGE:

Pursuant to Title 39.12 RCW, if awarded the project, the Contractor and each Subcontractor shall complete or have on file with the County a current "Statement of Intent to Pay Prevailing Wages" before payment will be made for work performed. An "Affidavit of Wages Paid" shall be required at the end of the project, before final payment is authorized. These forms are available from Washington State Department of Labor & Industries and can be filed electronically at <http://www.lni.wa.gov/TradesLicensing/PrevWage>.

The State of Washington prevailing wage rates applicable for this public works project, which is located in Skagit County, may be found at the following website address of the Department of Labor and Industries: <https://fortress.wa.gov/lni/wagelookup/prvWagelookup.aspx>.

Any materials purchased will be used in public work type projects as defined in RCW 39.12, and therefore, subject to state prevailing wage rates as set forth by the Washington Department of Labor and Industries. Bidders are advised to consider this charge when computing bids.

LICENSES AND PERMITS: Contractor shall procure all licenses, pay all charges, fees and taxes, and give all notices necessary and incidental to the due and lawful prosecution of the work. Contractors awarded a County Contract are responsible for compliance with Washington State Business License regulations.

CHANGES/AMENDMENTS: Skagit County reserves the right to add or delete work, items, agencies, or locations from this contract, subject to appropriate adjustments to the Contract price. Added items, agencies, or locations will be related to those on contract, and additions or deletions will be by mutual agreement, with prices consistent with the original bid price margins, and evidenced by an amendment to the Contract. The execution of an amendment shall constitute a waiver of Claims by the Contractor arising out of the Work to be performed or deleted pursuant to the amendment, except as specifically described in the amendment. General reservations of rights will be deemed waived and void.

FAILURE TO EXECUTE CONTRACT: Upon failure to return the performance and payment bonds, insurance certifications, and any other required documentation as specified in this document with the signed contract, as required, Skagit County may then award the contract to the second lowest responsive and responsible Bidder, or reject all remaining bids.

RETURN OF BID BOND/GUARANTY:

Proposal bonds and deposits will be held until the Contract has been properly executed pursuant to Title 36.32.250 RCW. When the Contract has been properly executed, all remaining bonds or deposits, except those subject to forfeiture, will be returned.

LEGAL RELATIONS AND RESPONSIBILITIES TO THE PUBLIC

COMPLIANCE WITH LAWS: Contractor shall comply with all applicable federal, state, tribal and local laws, rules, and regulations affecting its performance and hold Skagit County harmless against any claims arising from the violation thereof. No extension of time or additional payment will be made for loss of time or disruption of work caused by any actions against the Contractor for any of the above reasons.

APPLICATION OF SALES TAX: The work on this contract is to be performed upon lands whose ownership obligates the Contractor to pay State sales tax. Department of Revenue Rule 171 applies to this project. This work is not exempt from Sales Tax. The contractor shall include appropriate sales tax as shown on the Bid Proposal. The Contracting Agency will not adjust its payment if the Contractor bases a bid on a misunderstood tax liability.

DEFENSE & INDEMNITY AGREEMENT: The Contractor agrees to defend, indemnify and save harmless the County, its appointed and elective officers and employees, from and against all loss or expense, including but not limited to judgments, settlements, attorney's fees and costs by reason of any and all claims and demands upon the County, its elected or appointed officials or employees for damages because of personal or bodily injury, including death at any time resulting therefrom, sustained by any person or persons and on account of damage to property including loss of use thereof, whether such injury to persons or damage to property is due to the negligence of the Contractor, its subcontractors, its elected officers, employees or their agents, except only such injury or damage as shall have been occasioned by the sole negligence of the County, its appointed or elected officials or employees. It is further provided that no liability shall attach to the County by reason of entering into this contract, except as expressly provided herein.

HOLD HARMLESS: The Contractor shall hold Skagit County and its officers, agents and employees harmless from all costs, claims or liabilities of any nature including attorneys; fees, costs and expenses for or on account of injuries or damages sustained by any persons or property resulting from the negligent activities or omissions of the Contractor, its agents or employees pursuant to the Contract, or on account of any unpaid wages or other remuneration for services; and if a suit as described above be filed, the Contractor shall appear and defend the same at its own cost and expense, and if judgment be rendered or settlement made requiring payment by Skagit County, the Contractor shall pay the same.

TERMINATION FOR PUBLIC CONVENIENCE: The County may terminate the Contract in whole or in part whenever the County determines, in its sole discretion that such termination is in the best interests of the County. Whenever the contract is terminated in accordance with this paragraph, the Contractor shall be entitled to payment for actual work performed at unit contract

prices for completed items of work. An equitable adjustment in the contract price for partially completed items of work will be made, but such adjustment shall not include provision for loss of anticipated profit on deleted or uncompleted work. Termination of this contract by the County at any time during the term, whether for default or convenience, shall not constitute a breach of contract by the County. If sufficient funds are not appropriated or allocated for payment under this contract for any future fiscal period, the County will not be obligated to make payments for services or amounts incurred after the end of the current fiscal period. No penalty or expense shall accrue to the County in the event this provision applies.

PAYMENT

INVOICES: The Contractor shall be paid, upon submission of a proper invoice for payment request, the prices stipulated in the Contract for services performed (less deductions, if any), in accordance with all payment and retainage instructions herein. All accounts are paid according to Title 39.76 RCW. Submitted Payment Requests must contain the following minimum information:

- Contract number;
- Item number, quantity, and description as appropriate;
- Unit and extended prices.

SCOPE OF WORK

This service consists of the completion of a site plan as described below and planting with native vegetation to restore native species and ecological functions to this riparian area. The project area is located along the East Fork of Nookachamps Creek near Mount Vernon, WA (Figure 2). Due to the duration of project funding under the Voluntary Stewardship Program, all planting needs to be completed by Monday, March 31, 2025 and therefore there may not be sufficient time for "typical" site preparation such as spraying herbicide. Due to the condensed timeline the Contracting Agency has secured fourteen thousand seven hundred fifty (14,750) bareroot and livestake plants to be used toward the Project. As described below, the Contractor shall provide a list of additional plants and site plan for riparian restoration to the Contracting Agency for approval before beginning any work.

SITE DESCRIPTION

The Nookachamps restoration site is located near Mount Vernon in Skagit County, Washington in Sections 10 and 11, Township 34 North, Range 04 East, (Figure 2). The Project site is within a privately owned 396-acre property known as [Skagit Environmental Wetland Mitigation Bank](#). The

Project area is approximately seventeen (17) acres and begins at the upstream (eastern) property line and extends west/downstream to the western-most bridge located approximately three thousand one hundred fifty (3,150) feet downstream of the eastern property line (Figure 2).

Both the Skagit River and Nookachamps Creek frequently flood the Project area. The Project area is located within the lower Skagit River in one of the few remaining areas that does not have flood protection dikes. Historically, agricultural drainage ditches were installed; however, drainage is slow and the soils remain saturated for long periods of time. The riparian area currently consists of an approximately 100-foot-wide corridor dominated by reed canary grass and blackberry with the occasional native woody species such as Black Cottonwood, Nootka Rose, willows, and Red Alder. Beyond this corridor, the area is maintained for agricultural production. The intent of the Mitigation Bank is to replant the entire agricultural area though this work is not expected soon.

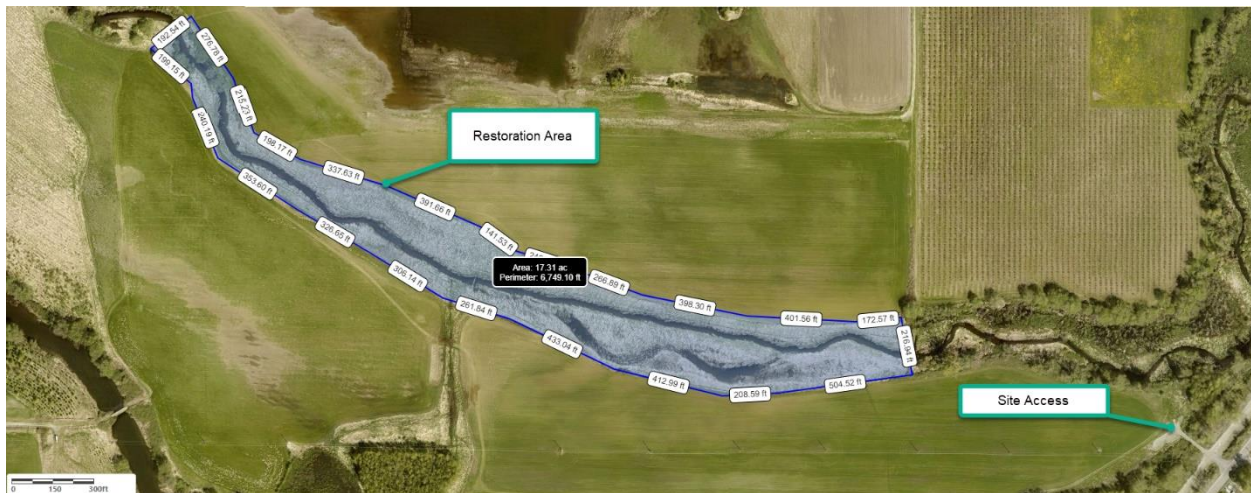

Figure 2. Site Overview

SITE ACCESS

Access to the site will be granted upon award of the Contract. The access driveway is located to the south of the project site off State Route 9. There is a bridge on the western edge of the property for access to the northern portion of the site. Storage of equipment may occur on site though the Bidder must consider the site conditions and weather forecast. Damage to equipment or materials left on site will be the responsibility of the Contractor and considered incidental to work performed.

SITE PLAN

The Contractor shall develop a restoration site plan to be approved by the Contracting Agency. The restoration site plan will include a Weed and Pest Control Plan and a Plant Establishment Plan as described in Section 8-02.3(2), unless superseded here. Specific planting density and other technical details in the restoration site plan shall be guided by and cite the references listed in Table 1. As described in the Site Plantings section below, plantings shall have an average density of eight (8) feet on center and be a mixture of shrubs, hardwoods, and coniferous trees. The Contracting Agency has secured fourteen thousand seven hundred fifty (14,750) plants (Table 2) for use in the Project. The Contractor shall complete the Site Plan using the secured plants, if deemed desirable, and referencing the list of Recommended Species below. The area shown in Figure 3 shall be planted with those species that handle disturbance well, such as willows and other livestock.

SITE PREPARATION

Due to the nature of the awarded funding, “typical” site preparation involving multiple weed treatments prior to planting is not possible. The site is currently dominated by reed canary grass with some patches of blackberry and other invasive vegetation, pasture grasses, and native plants including cottonwood, willow, and Nootka rose (Figures 4-6).

The Contractor is permitted to use herbicides to treat invasive vegetation **but** must avoid direct contact with water and existing native vegetation. Care must also be taken to ensure the survival of newly planted vegetation when using herbicides. Specific names and formulations of herbicides and surfactants proposed for use must be included in the Site Plan. Chemicals must always be applied as directed by the label at the minimum concentration needed for efficacy. The Contractor must notify the Contracting Agency at least forty-eight (48) hours before any herbicide application. The herbicide applicator must be licensed in Washington State for work in and around water and terrestrial environments. The Contractor must follow Environmental Protection Agency guidelines on appropriate herbicides for fish-bearing streams and adhere to section 8-02.3(2)B of the Standard Specifications.

Figure 4. Western end of project site.

Figure 5. Eastern end of project site.

The Contractor will collaborate with the Contracting Agency if non-vegetative debris or trash is found on site and needs removal. If the debris hinders the Contractor's work progress, the Contracting Agency will remove it within five (5) business days of notification by the Contractor. If feasible, the Contractor may move the debris to continue work and create a pile for later pick-up. When possible, the Contractor should place this pile outside the project area and adjacent to the driveway for easy accessibility. When notifying the Contracting Agency, the Contractor must specify whether the debris needs immediate removal to continue work or has been set aside for later pick-up.

Figure 6. Approximate areas of non-native species and existing conditions summary from the Mitigation Banking Instrument. Project area in blue outline.

SITE PLANTINGS

The entire area is approximately seventeen (17) acres. The waterward approximately two (2) acres and an area identified as a relic swale approximately two (2) acres require four (4) feet on center plant density while the remaining thirteen (13) acres will have an average density of eight (8) feet on center. Assuming all seventeen (17) acres can be planted we expect approximately eighteen thousand five hundred ninety (18,590) plants to be installed. All plants shall be planted by Monday, March 31, 2025. Plantings shall loosely follow the planting plan outlined in Appendix A. All plantings shall be native riparian vegetation (see “recommended species” below), with seed provenance appropriate to the region of planting. Species selection shall be a mixture of conifers, hardwoods, and shrubs, and may include robust herbaceous wetland species. To ensure the resilience of the native plant community, the riparian species selection shall be as diverse as possible and include a minimum of three (3) species of hardwoods and four (4) species of shrubs. Though bareroot planting is expected, plants shall not be root-bound when planted if sourced from potted stock. The project site routinely experiences flooding so selected species shall be known to tolerate these conditions. Any willows or other species planted as live stakes need to be a minimum of thirty-six inches (36”) in length and three eighths of an inch (3/8”) in diameter, and planted at a density of four (4) feet on center, and to a depth of at least half of the live stake length. Plantings will follow guidelines and specifications listed in the Site Plan section above.

Plant material provided in containers shall not be removed from the containers until the time of planting at the planting location. The plant material shall be handled in such a manner that the root systems are kept covered and damp at all times. The root systems of all bareroot or containerized plants shall be moist at the time of planting. In their final position, all plants shall have their top true root (not adventitious root) no more than one inch (1") below the soil surface, no matter where that root was in the original container.

Planting shall not occur during unsuitable soil or weather conditions as determined by the Project Manager. For example, prior to planting, on-site soil moisture must be determined sufficient to support new transplants. Under no circumstances will planting during freezing weather or in frozen ground be permitted. The Project Manager and / or the property Representative may be contacted to provide directions to the planting crew during the planting process. This may include being present on site occasionally.

Upon completion of the planting, the Project Manager and property Representative will inspect all plant material and notify the Contractor, in writing, of any replacements or corrective action necessary to meet the Contract Provisions. The Contractor shall replace all materials rejected or missing and correct unsatisfactory conditions.

Completion of the initial planting within a designated area includes the following:

1. One hundred percent (100%) of each of the plant material categories shall be installed as shown in the approved Site Plan.
2. Planting area clean-up: Area shall be free from removed vegetation, debris created during construction, and/or any other items not required for the Project functionality.
3. Approval of the plant establishment plan for the initial planting.

The Bid item for planting is based on the estimate of an approximate 17-acre planting area with an average plant density of eight feet (8) on center. The plant selection has been assigned based on the percentage break-down detailed above. The quantity for initial planting has been entered into the Proposal only to provide a common proposal for Bidders. Actual quantities will be determined by the approved site plan, and will be paid at the original bid price per plant, regardless of final quantity. This bid item shall not be subject to the provisions of 1-04.6 of the Standard Specifications.

RECOMMENDED SPECIES

Hardwoods: red alder, big-leaf Maple, vine maple, Oregon ash, black cottonwood, cascara
Shrubs: Indian plum, Nootka Rose, red-osier dogwood, salmonberry, twinberry, Pacific ninebark
Sensitive Areas: willow species, red-osier dogwood, Douglas's spiraea, panicled bulrush
Conifers: western red cedar, Sitka spruce, shore pine, Douglas-fir, western hemlock, grand fir

This is a list of some recommended species, not a list of required species. The Bidder may remove or add species to their list to be approved by the Contracting Agency.

SITE MAINTENANCE

Due to project funding deadlines only one (1) round of site maintenance shall be included. This work is to be completed by Friday, May 30, 2025. Maintenance may include herbicide application, mowing, mulching, or hand work as needed to ensure the growth of the transplanted material and that non-native vegetation does not over-top newly planted vegetation. All non-native aggressive species such as blackberry, but not reed canary grass, shall be sprayed during this maintenance period.

Mulching is a common technique used in restoration work. The Contracting Agency will not require mulching. If the Bidder would like to use mulching as a technique in their restoration work, they shall include it in the maintenance portion of the bid. If the Contractor opts to use mulch as a maintenance technique. Mulch shall be placed as follows:

- Feathered to the base of the plant,
- All plant crowns shall remain free of mulch and no mulch shall be in contact with plant stems, and
- Mulch placed to a thickness greater than described in the approved site plan shall be at no additional cost to the Contracting Agency.

PAYMENT FOR PLANTING

The unit Contract price for “Purchase and Installation of _____”, per plant, shall be full pay for materials, labor, tools, equipment and supplies necessary for planting, cultivation, plant storage and protection, staking, and clean-up necessary to complete the planting operations as specified.

The unit Contract price for “Installation of _____”, per plant, shall be full pay for labor, tools, equipment and supplies necessary for planting, cultivation, plant storage and protection, staking, and clean-up necessary to complete the planting operations as specified. Plants shall be provided by the Contracting Agency.

1. ALL HOURS WORKED IN EXCESS OF EIGHT (8) HOURS PER DAY OR FORTY (40) HOURS PER WEEK SHALL BE PAID AT ONE AND ONE-HALF TIMES THE HOURLY RATE OF WAGE.
 - B. All hours worked on Saturdays shall be paid at one and one-half times the hourly rate of wage. All hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.
 - C. The first two (2) hours after eight (8) regular hours Monday through Friday and the first ten (10) hours on Saturday shall be paid at one and one-half times the hourly rate of wage. All other overtime hours and all hours worked on Sundays and holidays shall be paid at double the hourly rate of wage.
 - D. The first two (2) hours before or after a five-eight (8) hour workweek day or a four-ten (10) hour workweek day and the first eight (8) hours worked the next day after either workweek shall be paid at one and one-half times the hourly rate of wage. All additional hours worked and all worked on Sundays and holidays shall be paid at double the hourly rate of wage.
